TDF Infrastructure

Year ended December 31, 2023

Statutory auditors' report on the consolidated financial statements

To the Sole Shareholder of TDF Infrastructure,

Opinion

In compliance with the engagement entrusted to us by the decisions of the sole shareholder, we have audited the accompanying consolidated financial statements of TDF Infrastructure for the year ended December 31, 2023.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group as at December 31, 2023 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

The audit opinion expressed above is consistent with our report to the Audit Committee.

Basis for Opinion

Audit Framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Statutory Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report.

Independence

We conducted our audit engagement in compliance with the independence requirements of the French Commercial Code (*Code de commerce*) and the French Code of Ethics for Statutory Auditors (*Code de déontologie de la profession de commissaire aux comptes*) for the period from January 1, 2023 to the date of our report and specifically we did not provide any prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No. 537/2014.

Justification of Assessments - Key Audit Matters

In accordance with the requirements of Articles L. 821-53 and R. 821-180 of the French Commercial Code (*Code de commerce*) relating to the justification of our assessments, we inform you of the key audit matters relating to risks of material misstatement that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period, as well as how we addressed those risks.

These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on specific items of the consolidated financial statements.

Evaluation of non-current assets

Risk identified

As at December 31, 2023, the net value of the consolidated non-current assets amounted to \notin 4,94 billion with total assets on the balance sheet of \notin 5,38 billion. These non-current assets consist mainly of goodwill, tangible and intangible assets, including land and transmission networks. Those non-current tangible and intangible assets are recognized in accordance with the methods described in Notes 4.9 to 4.11 to the consolidated financial statements.

Your Group performs impairment tests on these fixed assets whenever there is an impairment indication, and at least once a year in the case of assets with indefinite useful life.

Impairment tests are performed on goodwill based on discounted cash flow projections generated by the underlying assets in their current operating conditions. These tests require the use of assumptions (perpetual growth rate and discount rate in particular), estimates or assessments. The methodology used to perform these tests is described in Note 9.1 to the consolidated financial statements.

Our response

We obtained an understanding of the procedure set up by your Group to determine the recoverable value of non-current assets and analyzed the methodology used for performing impairment tests.

Our work mainly consisted in:

- assessing, in advance, whether the rules and the methods of accounting for non-current assets are properly applied;
- reconciling the future cash flows used with those included in Management's business plans by analyzing the consistency of these forecasts with your Group's past performance and market outlooks;
- analyzing the procedure for setting up and approving business plans;
- studying sensitivity analyses carried out by your Group, and performing our own sensitivity analyses on key assumptions to assess the possible variation impact of these assumptions on the findings of the impairment tests;

Therefore, we considered the valuation of the noncurrent assets to be a key audit matter due to their significant importance in the financial statements . Furthermore, this valuation is based on Management's judgments and estimates.

- conducting interviews with Management and financial managers in charge of key data and assumptions on which are based the estimates underlying operational cash flows used in the valuation model;
- testing the clerical accuracy of the models and recalculating the values in use determined by your Group;
- assessing the methodologies used to determine the discount and long-term growth rates, comparing them with market data, and recalculating them with our own data sources.

Specific Verifications

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by laws and regulations of the information given in the President's Group management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

Report on Other Legal and Regulatory Requirements

Appointment of the Statutory Auditors

We were appointed as statutory auditors of TDF Infrastructure by decision of the sole shareholder of December 18, 2015 for FINEXSI AUDIT and of March 31, 2017 for ERNST & YOUNG Audit.

As at December 31, 2023, FINEXSI AUDIT was in its ninth year of total uninterrupted engagement and ERNST & YOUNG Audit was in its seventh year.

Previously, ERNST & YOUNG et Autres has been statutory auditor since 2006.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The Audit Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risk management systems and where applicable, its internal audit, regarding the accounting and financial reporting procedures.

The consolidated financial statements were approved by the President.

Statutory Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Objectives and audit approach

Our role is to issue a report on the consolidated financial statements. Our objective is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these consolidated financial statements.

As specified in Article L. 821-55 of the French Commercial Code (*Code de commerce*), our statutory audit does not include assurance on the viability of the Company or the quality of management of the affairs of the Company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit and furthermore:

- Identifies and assesses the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management in the consolidated financial statements.
- Assesses the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of his audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in the consolidated financial statements or, if such disclosures are not provided or inadequate, to modify the opinion expressed therein.
- Evaluates the overall presentation of the consolidated financial statements and assesses whether these statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtains sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. The statutory auditor is responsible for the direction, supervision and performance of the audit of the consolidated financial statements and for the opinion expressed on these consolidated financial statements.

Report to the Audit Committee

We submit to the Audit a report which includes in particular a description of the scope of the audit and the audit program implemented, as well as the results of our audit. We also report significant deficiencies, if any, in internal control regarding the accounting and financial reporting procedures that we have identified.

Our report to the Audit Committee includes the risks of material misstatement that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period and which are therefore the key audit matters that we are required to describe in this report.

We also provide the Audit Committee with the declaration provided for in Article 6 of Regulation (EU) No. 537/2014, confirming our independence within the meaning of the rules applicable in France as set out in particular in Articles L. 821-27 à L. 821-34 of the French Commercial Code (*Code de commerce*) and in the French Code of Ethics for Statutory Auditors (*Code de déontologie de la profession de commissaire aux comptes*). Where appropriate, we discuss with the Audit Committee the risks that may reasonably be thought to bear on our independence, and the related safeguards.

1. Highlights of the year

Eurozone interest rates

As of December 2023, changes in interest rates in the eurozone led the Group to assess the possible impact on the discount rate used at the time of the impairment tests of assets (see note 9.1) The sensitivity analyzes, that have been carried out, confirmed that it was not necessary to revise the discount rate.

Moreover, as part of the annual impairment tests carried out on the basis of its business activity forecasts, the Group took into account all the macroeconomic factors observed, in particular those related to inflation. Thus, as of December 31, 2023, the impairment tests did not lead to the recognition of any impairment on goodwill, intangible and tangible assets (see notes 9.1, 9.2 and 9.3)

Disposal of Monaco Media Diffusion

On February 16, 2023, the Group sold its stake in Monaco Media Diffusion. As of December 31, 2022, this entity was accounted for under the equity method (see note 7.2, 16 and note 19).

One-year extension of the Capex facility

On February 20th, 2023, TDF Infrastructure SAS obtained the agreement from all lenders concerned, allowing to exercise a one-year extension option bringing to March 26, 2026, the maturity of the syndicated acquisition and capex facility (« Capex Facility 2021»).

Bank debt refinancing

On July 10, 2023, TDF Infrastructure SAS has completed a €500 million bank financing, which includes the refinancing and upsizing of the revolving credit facility, as well as the signing of a new syndicated capex facility agreement.

Revolving credit facility

The refinancing operation carried out in July 2023 led to the replacement of the \in 250 million credit line signed in 2018 (see the note 5.4) by a new revolving credit line for an amount of \in 325 million, for which the contractual maturity is July 10, 2028, with two one-year extension options that can extend the maturity until July 2030.

New Capex Facility

Simultaneously, the Group signed an additional syndicated €175 million capex facility agreement ("Capex Facility 2023"), for which the contractual maturity is July 10, 2026, with two one-year extension options that can extend the maturity until July 2028.

This credit line comes as an addition to the first capex facility line from 2021 "Capex Facility 2021" (see note 5.4).

Bond refinancing : bond issue on July 21, 2023 and tender offer on the existing bonds.

On July 21, 2023, TDF Infrastructure SAS announced the successful settlement of €600 million bonds, with a fixed coupon of 5.625% and a maturity on July 21, 2028.

The proceeds of the new bonds are used for general corporate purposes and to finance the concurrent tender offer, carried out simultaneously on a part of the existing bond of €800 million due on April 7, 2026, generated thus a partial reimbursement of €150 million on July 24, 2023.

2. General presentation

The Group's consolidation head company, TDF Infrastructure SAS, is a "société par actions simplifiées" (simplified joint stock company) with a registered office at 92 120 Montrouge - 155 bis Avenue Pierre Brossolette.

As a partner to television, radio, telecommunication operators and local governments, the Group performs the following activities:

- Telecommunications: design, deployment, maintenance, and management of 2G, 3G, 4G, 5G telecommunication networks infrastructure, hosting on roof tops and indoor areas, datacenters and Edge Computing solutions, hosting of broadcasting and reception equipment on proprietary sites,
- digital network facilities in France through the deployment and marketing of Very High-Speed optical fiber networks,
- audiovisual services and networks (TV and radio digital broadcasting, radio FM broadcasting).

The Group draws upon its recognized expertise and over 21 400 terrestrial sites mainly in France and focuses on rolling out its telecommunication infrastructures and developing new digital solutions: ultra-high-definition television, private mobile networks etc.

The Group operates in markets characterized by sweeping changes in both technology and regulations (for example, some businesses are subject to pricing constraints imposed by local regulatory authorities).

2.1 Presentation of the financial statements

The main performance indicators used by the Group are:

EBITDA, which is equivalent to current operating income before depreciation, amortization, and impairment of assets.

EBITDAaL (EBITDA after Leases, see note 6), which corresponds to EBITDA adjusted for:

- charges corresponding to operating leases,
- charges booked in relation to the application of IFRS 2 which are non-cash in nature,
- charges corresponding to severance payments and all fees directly related (lawyers, etc.)

Current operating income, which is equivalent to operating income before:

- Any impairment of goodwill,
- "Other operating income" and "other operating expenses", which may include,
 - Material and unusual gains or losses on sale and/or impairment of non-current tangible and intangible assets;
 - Certain restructuring charges:
 - Gains or losses on sale of subsidiaries net of selling costs, liquidation costs and acquisition costs of subsidiaries;
 - Other operating income and expenses, such as a provision for material litigation, changes in provisions for dismantling affecting income and related to changes in calculation assumptions.

3. Basis of preparation

3.1 Statement of compliance

The consolidated financial statements of the TDF Infrastructure Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and applicable at the reporting date, December 31, 2023.

IFRS can be downloaded from the following website: https://ec.europa.eu/info/index_fr

The TDF Infrastructure Group's financial statements were approved by the Chairman of TDF Infrastructure on March 27, 2024.

3.2 Functional and presentation currency

The TDF Infrastructure Group's financial statements are stated in thousands of euros, which is the presentation and functional currency of the Group's consolidation head company.

3.3 Basis of measurement

Financial statements items have been determined based on a historical cost basis, except for the following items that are recognized at fair value: financial instruments held for trading, available-for-sale financial instruments and liabilities arising from cash-settled share-based transactions. The methods applied to estimate the fair value of these items are explained in note 4.12.

3.4 Judgments and estimates

In the preparing the consolidated financial statements, the measurement of certain balance sheet items requires the use of assumptions, estimates or judgments. This is notably the case with goodwill (see notes 9.1 and 4.11), tangible and intangible assets (see notes 4.9 to 4.11, 9.2 and 9.3), provisions (see notes 10.3 and 10.4), deferred taxes (see notes 4.8 and 10.5), and revenue recognition (see note 4.4). These assumptions, estimates and assessments are determined based on information available or situations existing at the time the consolidated financial statements are prepared and may subsequently differ from future conditions.

At each reporting date, the Group identifies the assets for which a disposal has been initiated and assesses if the sale is highly probable as required by IFRS 5.

IFRS 5 states that an entity shall classify a non-current asset (or disposal group) as held for sale if its book value will be recovered principally through a sale transaction rather than through continuing use. For the sale to be highly probable the asset (or disposal group held for sale) must be available for immediate sale in its present condition and management must be committed to the sale.

In addition, the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification. In this case the non-current asset (or disposal group) is valued at the lower of its carrying value and fair value less costs to sell.

Most Group entities have multi-year agreements with large customers. During the term of the agreements and upon expiry and/or renewal, discussions take place between those entities and their customers over the conditions, particularly financial, that have applied to these agreements. In view of this, where applicable, the entities record in their books the expected benefits and obligations under the agreements, including their best estimate of the effect of consequences deriving from the terms thereof. These estimates are uncertain by nature, and the actual results

may be significantly different from estimates made at the date of the preparation of the consolidated financial statements.

The Group is not subject to significant seasonal fluctuations.

4. Significant accounting policies

As of December 31, 2023:

- The accounting policies described hereunder have been applied by all Group entities throughout all the periods presented in the consolidated financial statements.
- The accounting policies are unchanged compared to those used in the preparation of the consolidated financial statements for the year ended December 31, 2022.

4.1 Standards and interpretations in force

The Group has applied the standards, amendments to standards and interpretations as adopted by the European Union that are required to be applied from December 31, 2023.

4.2 Consolidation

The consolidated financial statements include the financial statements of TDF Infrastructure SAS and its subsidiaries, as well as the financial statements of associates and joint ventures.

Entities are included in the consolidation scope at the date when control is transferred to the Group. They are excluded from the consolidation at the date they cease to be controlled by the Group. See note 19 for the consolidation scope for the consolidated financial statements.

Subsidiaries

In accordance with IFRS 10, subsidiaries are all entities on which the Group exercises control, that is it is determined to have:

- power over the entity;
- exposure, or rights, to variable return from its involvement with the subsidiary;
- ability to use its power over the subsidiary in order to affect the expected returns.

Subsidiaries' financial statements are consolidated, and non-controlling interests are measured based on their pro rata share of equity in the underlying business.

Investments in associates

An associate is an entity over which the Group has significant influence, meaning the power to participate in the financial and operating decisions but not to exercise control over these policies. Significant influence is presumed when the Group holds directly or indirectly through its subsidiaries 20% or more of the voting rights. Investments in associates are accounted for under the equity method.

Under this method, investments in associates are reported as a separate item on the balance sheet and the net income or loss of associates is reported as a separate item in the statement of comprehensive income.

If the Group's share of the losses of an associate exceeds the carrying value of the investment, the investment is written off. The Group continues to recognize its share of the losses of the associate only to the extent it has a binding obligation to make additional investments to cover those losses.

Non-controlling interests

Non-controlling interests are identified separately within equity. The share of non-controlling interests in consolidated net income is reported as a separate item in the statement of comprehensive income.

4.3 Foreign currency translation

Transactions in foreign currencies

Transactions in foreign currencies are translated into the functional currency at the exchange rate prevailing at the time of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at exchange rate prevailing at the reporting date. Non-monetary items measured at historical cost are translated using.

The historical exchange rate as at the date of the transaction, while those measured at fair value are translated using the exchange rate as at the date on which fair value is determined.

Translation of foreign entities' financial statements

The functional currency of foreign companies is their local currency, which they use for most of their transactions. The financial statements of foreign subsidiaries whose functional currency is not the euro are translated into euro as follows:

- Assets and liabilities, including related goodwill, are translated at the rate prevailing on the reporting date,
- Income and expense items are translated at the average exchange rate over the period (the average exchange rate is an approximate value of the transaction date rate when there is no significant fluctuations),
- The cash flow statement is translated at the average exchange rate over the period.

Exchange differences arising on translation are shown in the currency translation reserve included in equity. In the event of a loss of control of a foreign entity, the cumulative amount in the currency translation reserve related to this foreign entity is recorded in profit or loss. In the case of a partial disposal without loss of control, a proportion of the cumulative amount of exchange differences related to this entity held in the currency translation reserve is reclassified from equity attributable to owners of the company to non-controlling interests.

Exchange rates used for the period

The following were the functional currencies and the associated exchange rates used in preparing the Group's consolidated financial statements:

	Decemb	er 2023	Decemb	er 2022
	Average	Closing	Average	Closing
Polish zloty	0,220151	0,230346	0,213399	0,213872

4.4 Revenue recognition (IFRS 15)

Revenue consists in the sale of goods and services to third parties, net of discounts or rebates and sales related taxes. Intra-group sales are eliminated upon consolidation.

Revenue recognition complies with the principles of IFRS 15, that is to say an income recognition based on the transfer of goods or services to a customer (performance obligations), for an amount that reflects the payment that the entity expects to receive in return for these goods or services.

Main characteristics of revenue recognition, depending on Group activities, are as follows :

1. Digital Television

- Two distinct Performance Obligations (POs) are identified:
 - reception and formatting of the signal to be broadcasted
 - broadcast via the use of a transmitter and various other equipment

For each of these POs, the client benefits from the service throughout the duration of the contract and as TDF carries out the service. The revenue recognition of these two POs is spread.

2. Radio

Three distinct Performance Obligations (POs) are identified:

- Transport
- Acquisition-Treatment
- Broadcast

For each of these POs, the client benefits from the service throughout the duration of the contract and as TDF carries out the service. The revenue recognition of these three POs is spread.

3. Telecom: site hosting

Three distinct Performance Obligations (POs) are identified, with the following characteristics:

- The engineering service to prepare site hosting:
 - The performance obligation is reached once the study is finalized and communicated to the client, whether it progresses further,
 - The revenue is therefore recognized for the overall amount of the engineering package when the study is delivered;
 - Site hosting and energy supply
 - The customer benefits from site hosting and energy supply throughout the duration of the contract and as TDF carries out the service,
 - The revenue is therefore recognized in a spread manner, considering the different mechanics of price revisions and contractual credit notes applicable.
- Use of air equipment:
 - o The customer benefits from the availability of such equipment as and when made available,
 - The revenue relating to this provision is therefore spread over the duration of the contract.

4. Fiber activity

FTTH "Fiber to the Home" contracts consist in providing the customer with a right of use the rolled-out fiber optic network. All of the services included in this contract are covered by the performance obligation relating to the use of the network.

The customer benefits from the services throughout the duration of the contract, as it uses the shared fiber network.

The revenue relating to FTTH is therefore spread over the duration of the contract.

Moreover, as of December 31, 2022:

- In accordance with IFRS 15, the Group analyses and recognizes a significant financing component if the timing of payments agreed to by the parties to the contract (either explicitly or implicitly) provides the customer or the entity with a significant benefit of financing the transfer of goods or services to the customer. The promised amount of consideration, in determining the transaction price, is adjusted for the effects of the time value of money.
- the analysis carried out on the various contracts concluded that the Group was as a principal for these contracts.

4.5 Government grants (IAS 20)

Government grants are recognized when there is a reasonable assurance that they will be received and that the Group will comply with the conditions associated with the grant.

Grants related to assets (investment grants) are shown as a reduction in the carrying value of the asset and amortized over its useful life by a reduction in the depreciation charge.

Operating grants are credited to profit or loss in the periods associated with the related costs.

4.6 Leases (IFRS 16)

The Group recognize most of their leases as an asset (tangible asset) with an associated financial debt. The lease is thus presented as a purchase of fixed assets on credit.

This presentation concerns all contracts which meet the criteria of being a lease agreement in accordance with IFRS 16.

As of December 31, 2023, the identified contracts are as follows:

- The operating leases entered by the Group:
 - Commercial leases,
 - Agreements for the occupation of public property (AOPP),
 - Tertiary sites leases,
 - o Exclusive contracts related to real estate parks
 - Connection and capacity contracts,

Beyond the identification of contracts included in the scope of the IFRS 16 standard, the restatement on financial statements considers the following assumptions:

1. Interest rate considered to calculate the restatement:

- For leases corresponding to activities with contractual cycles of less than 10 years, the interest rate applied is the Group's incremental borrowing rate in force at the start of the lease,
- For leases corresponding to activities with contractual cycles higher than or equal to 10 years, the interest rate applied is the shareholder loan rate beard by Tivana France Holdings SAS (sole shareholder of TDF Infrastructure Holding SAS since March 31, 2015), toward Tivana Midco S.à.r.I, and in force at the start of the lease.

2. Economic duration of the contracts:

Since IFRIC decision of November 26th, 2019, the lease is now considered enforceable if the lessee, or the lessor, would have to incur a penalty that is more than insignificant in case of contract termination.

Concerning the Group, the existence or absence of operational constraints, in particular for sites which serve customer contracts that are secured on a long-term basis, allows to determine the economic duration of contracts. When necessary, the renewal of customer contracts carried by leased assets will result in an increase of the enforceable period of the lease under IFRS 16.

4.7 Financial income and charges

Financial income consists of interest on investments, dividends received from non-consolidated entities, increases in the fair value of financial assets held at fair value through profit or loss, and gains on hedging instruments recognized in profit or loss.

Dividends are recognized when the shareholder's right to receive payment is established.

Financial charges consist of interest on borrowings, amortization of loan issue expenses, the unwinding of discounts on provisions, reductions in the fair value of financial assets held at fair value through profit or loss, impairment losses recognized on financial assets and losses on hedging instruments recognized in profit or loss.

Exchange gains and losses are recognized at their net amount.

4.8 Income tax

From April 1, 2015, a new tax consolidation group was created headed by Tivana France Holdings, sole shareholder of TDF Infrastructure Holding SAS, itself a shareholder of the Group. All French subsidiaries which are directly or indirectly owned at least 95% by Tivana France Holdings SAS are included in the tax consolidation group.

Income tax have been calculated in compliance with the tax consolidation convention, in which each entity of the tax consolidation group bears its own income tax charge and retains the benefit of its tax loss carried forward towards the tax consolidation group head company, as if the entity operated on a standalone basis from a tax point of view.

Since January 1st, 2023, a new tax consolidation group has been created headed by TDF Fibre. All subsidiaries of TDF Fibre (Val d'Oise Fibre, Yvelines Fibre, Val de Loire Fibre, Anjou Fibre et FG Fibre) are directly owned at 100% (see the note 19) and thus included in this tax consolidation group ("Fiber tax group").

On this basis, income tax expense or income consists of current tax expense (income) and deferred tax expense (income). Current and deferred tax is recognized in profit or loss except if it relates to a business combination or to items recognized directly in equity or in other items in the statement of comprehensive income.

Current tax is the estimated amount of tax payable (or receivable) on the taxable profit (or loss) of a period and of any adjustments to the amount of current tax in respect of previous periods.

Deferred tax is recognized using the liability method for all temporary differences between the carrying value of assets and liabilities and their tax bases. Temporary differences linked to the Group's holdings in its subsidiaries do not give rise to recognition of deferred tax, to the extent that these differences will not be reversed in the foreseeable future.

The measurement of deferred tax assets and liabilities depends on when the Group expects them to be reversed, using the tax rates in effect or announced at the reporting date.

Deferred tax assets are recognized only to the extent that the Group expects to have future profits to which they may be applied.

In accordance with IAS 12, deferred tax assets and liabilities are not discounted.

The Group considers the CVAE as income tax. In accordance with IAS 12, this classification requires the Group to recognize the related deferred tax, notably on depreciable non-current assets. As of December 31, 2022, the deferred tax liability related to the CVAE amounts to ≤ 0.3 m.

IFRIC 23 - Uncertainty over Income Tax Treatments

IFRIC 23 clarifies the application of the standard IAS 12 "Income Taxes" regarding recognition and assessment, when there is uncertainty about the treatment of income taxes.

This standard involves an entity identifying whether it is likely that a relevant tax authority will accept each tax treatment or set of tax treatments it has used or intends to use in its tax return.

Thus, it must determine taxable profit, tax values, unused tax losses, unused tax credits or tax rates using either the most probable amount or the expected value method.

4.9 Property, plant and equipment

Recognition and measurement

Excluding for goodwill allocation purpose (IFRS 3), property, plant and equipment is recorded at cost, less accumulated depreciation and impairment. Cost includes expenses directly attributable to the transfer of the asset to the place where it is to be used, and to prepare it for use.

Where applicable it also includes costs relating to the dismantling and removal of assets and to restoring sites to their original states where the Group is obliged to do so, without being subject to subsequent revaluation.

The total cost of an asset is broken down between its various components each of which is accounted for separately. Such is the case where different components of an asset have different useful lives.

Current maintenance and upkeep costs are expensed as incurred.

Depreciation is recognized as an expense based on the straight-line method over the estimated useful life of each component of property, plant and equipment.

Land is not depreciated.

Items of property, plant and equipment to be scrapped are fully depreciated before being derecognized.

Useful lives in years:

Buildings	18 to 50 years
Pylons	10 to 40 years
Transmitters	8 to 40 years
Microwave links	8 to 15 years
Office furniture, office and computer equipment	3 to 10 years
Other	4 to 24 years

The fair value of property, plant and equipment recognized following a business combination is based on market values and/or replacement cost where appropriate.

Leased assets

Leases recognized under IFRS 16 are presented as non-current assets under the right of use. They correspond to the present value of the minimal lease payments and is depreciated over the term of the agreement. The corresponding liability is shown under financial liabilities as lease liability.

Safety inventories

The major safety and spare part inventories that are essential to maintain property, plant and equipment and to ensure its continuous use, that have no other use and that the Group intends to use over a period longer than 12 months are recognized as property, plant and equipment and depreciated over the same period as the principal asset to which they are related.

Spare parts for which use (consumption, capitalization, or sale) is not specifically identifiable are recognized under inventories.

4.10 Intangible assets

Goodwill

Goodwill represents the difference between the purchase price of the investment in the consolidated companies and the fair value of their identifiable net assets at the date of transfer of control to the Group. At the acquisition date the fair value of the assets and liabilities of the acquired entity are determined by reference to market values or, failing that, by using generally accepted methods such as those based on costs and revenues.

Costs incurred by the Group in relation to the acquisition are expensed as incurred and recognized in other operating expenses, except costs related to acquisition of non-controlling interests which are recognized in equity.

Except at the time of a business combination, assets and liabilities acquired are not revalued.

Negative goodwill arising from an acquisition is recognized immediately in profit or loss within operating income, under the heading "Impairment of goodwill".

Goodwill recognized on associates is shown under "Shares in associates" on the balance sheet. Impairment of goodwill recognized on associates is shown in the statement of comprehensive income under "Share of net profits (losses) of associates".

Acquisitions of non-controlling interests are recognized as transactions with shareholders and do not give rise to goodwill.

In accordance with IFRS 3 "Business combinations", goodwill is not amortized and is subject to an impairment test at least once a year and whenever an indicator of loss of value occurs (see note 4.11).

Research and development costs

All research costs are recognized as expenses in the period in which they are incurred.

Development costs deriving from the application of the results produced by research are capitalized only to the extent that the Group can demonstrate that:

- It has the intention and ability to complete the project;
- The probability is that future economic benefits will accrue to the Group;
- Costs can be determined in a reliable manner.

On average, development costs are amortized over 5 to 10 years. Amortization is calculated under the straight-line method.

Other development and similar costs not meeting the above criteria are recognized as expenses in the period in which they are incurred.

Other intangible assets

Other intangible assets are comprised of:

- intangible assets recognized at the time that acquisition consideration is allocated: mainly order backlog, customer relationships, patents, technology and the benefits accruing from leases and trademarks. Except for trademarks, these assets are amortized, where appropriate, on a straight-line basis over the economic life of the asset in question (primarily the average term of the contracts: see note 9.2).
- other intangible assets, mainly software and patents, are amortized using the straight-line method over a ten-year period for patents and technologies and a five-year period for software.
- Optical fiber networks deployed and operated under service concession, which are analyzed in accordance with IFRIC 12 (see below)

Intangible assets to be scrapped are fully amortized before being derecognized.

Subsequent expenditures

Subsequent expenditures relating to intangible assets are capitalized only to the extent that these expenditures will enable the asset to generate future economic benefits in excess of its originally assessed standard of performance. All other expenditures are expensed in the period in which they are incurred.

Measurement of intangible assets arising from a business combination

Fair value is defined as the price at which an asset could be expected to be exchanged between knowledgeable, willing parties in an arm's length transaction.

The Group uses a revenue-based approach to estimate the fair value of intangible assets recognized following a business combination. This approach determines the value of an asset by reference to the present value of the future revenues attributable to it or of the cost savings achieved from owning the asset.

The two revenue-based methods are:

- The royalty method

This method consists of discounting the present value of future revenues that could be obtained by licensing the asset to a third party. The revenues that would be generated are estimated by applying a royalty rate appropriate to the total revenues generated from using the asset.

- The super-profits method

This method measures assets by reference to the discounted present value of the future super-profits to be made from use of the asset. It consists in discounting, over a sufficiently long period and at an appropriate rate, the super-profit generated by the asset, after deducting a fair return for the other assets and liabilities used to generate these cash flows.

The life of an asset is determined by taking the period during which the asset contributes directly or indirectly to the Group's future cash flows.

Service concession arrangements applied to public initiative networks

The Group deploys, operates and markets public initiative networks to support the ultra-high-speed broadband rollout in sparsely populated areas. These networks are deployed and operated under service concession and are analyzed in accordance with IFRIC 12 "Service Concession Arrangements".

When building a network, the Group holds a right to charge users of the public service. As a result, this right is recognized as an intangible asset. This asset is measured at the infrastructure fair value and amortized over the agreement period.

4.11 Impairment

Financial assets

A financial asset is subject to impairment whenever there is an objective indication that an adverse event has occurred after its initial recognition and that this event has a negative impact on the future cash flows of the asset that can be reliably estimated.

Non-financial assets

Carrying values of the Group's non-financial assets are reviewed at each reporting date in order to assess whether there is any indication that an asset is impaired. If there is such an indication, the recoverable amount of the asset is estimated, and if necessary, an impairment expense is recognized to reduce the carrying value of the asset to its recoverable value, as described below.

For goodwill and intangible assets with an indefinite life, the recoverable amount is estimated on an annual basis during the last quarter of the fiscal year or during the year if an indicator of loss of value arises. For other noncurrent tangible and intangible assets, the recoverable amount is estimated if there is any indication that an asset has suffered impairment.

Estimation of the recoverable amount

The recoverable amount of an asset or group of assets is the higher of its fair value less costs to sell and its value in use.

Fair value less costs to sell is the best estimate of the amount obtainable from the sale of an asset or group of assets in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal. This estimate is determined by using available market information. Fair value is estimated based on projected cash flows discounted to present value, using assumptions that any market player would make. In particular, consideration is given to any restructuring or expansionary investment that would normally be envisaged by any market player.

The fair value determined is further corroborated by observing the EBITDA multiples resulting from recent transactions and comparable listed companies.

Value in use as generally used by the Group corresponds to the present value of the future cash flows expected to be derived from an asset or group of assets based on assumptions made by the Group's management regarding economic, regulatory and forecast operating conditions. These cash flows correspond to those generated by the assets in their current operating state.

In all cases, discounted cash flows are determined as follows:

- Cash flows are obtained from:
 - five to ten-year business plans as this period corresponds to the time needed for activities such as digital television to reach maturation,
 - twenty five-year business plans, specifically concerning service concessions operated for the ultrahigh-speed broadband roll-out in sparsely populated areas.
- Beyond this horizon, cash flows are extrapolated using a growth rate to perpetuity that reflects the market's expected long-term growth rate;
- Cash flows are discounted to present value using rates that reflect the risks inherent to the activities and countries concerned. (See the note 9.1 on the assumptions underlying the impairment tests)

Definition of Cash Generating Units

The Cash Generating Unit (CGU) is the smallest identifiable group of assets generating largely independent cash inflows.

Goodwill impairment tests are carried out at the level of CGU groups of CGUs corresponding to the level at which the monitoring of returns on investment is carried out, for internal management purposes, considering the expected synergies between the CGUs.

As of December 31, 2023, in accordance with the operating segments presented (see note 6) and the application of IFRS 8, the CGUs or groups of CGUs that were selected for goodwill impairment testing are Towers France, Fiber, PSN Infrastuktura and Levira.

Tangible and intangible assets which do not generate independent cash flows are tested at the level of the CGUs to which they belong. These assets may nonetheless be subject to individual tests in cases where their fair value can be determined, or it can be established that there is no reason their value in use should exceed their fair value.

Recognition of impairment

If the carrying value of a CGU or a group of CGUs exceeds its recoverable value, an impairment loss is recognized, without any offset with other CGUs or groups of CGUs for which the carrying value is less than their recoverable value. Impairment losses are recognized as other operating expenses. An impairment loss is allocated first to reduce the carrying value of any goodwill allocated to the CGU or group of CGUs tested, and then against the carrying value of the CGU or group of CGUs' other assets.

An impairment loss recognized against goodwill cannot be reversed in a subsequent period. For assets other than goodwill, the Group assesses at each reporting date whether there is any indication that an impairment loss recognized in prior periods may no longer exist or may have decreased, and if such is the case, the increased carrying value of the asset attributable to a reversal of an impairment loss may not exceed the carrying value that would have been determined, net of amortization or depreciation, had no impairment loss been recognized for the asset in prior years.

4.12 Financial instruments

The Group initially recognizes loans, receivables and deposits on the date on which they are generated. All other financial assets are initially measured on the date on which the Group becomes a party to the contractual terms attaching to the instrument.

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers substantially all the risks and rewards of ownership of the asset to another entity.

Financial assets and liabilities are netted and shown for the net balance if, and only if, the Group has the legal right to offset them.

Group financial instruments are detailed hereinafter:

Financial assets recognized at fair value

Financial assets recognized at fair value comprise of financial assets held for trading, namely financial assets held by the Group with the intention of selling in the short-term or which are part of a portfolio managed to generate short-term profits. Changes in the fair value of these items are recognized in profit or loss.

Loans and receivables

Loans and receivables include receivables relating to non-consolidated equity holdings, other loans and receivables and trade receivables.

Trade receivables are recognized initially at fair value.

If the recoverable amount becomes lower than the net carrying value, an impairment charge is recognized under operating income.

Cash and cash equivalents

Cash and cash equivalents is comprised of current account balances with banks as well as cash equivalents defined as short-term investments (the term of the investment is usually less or equal to 3 months) that are highly liquid (can be sold at any time without impact on their value), and readily convertible to known amounts of cash and which are subject to an insignificant risk of loss in value (with historical data confirming the regularity of their growth in result).

For purposes of the cash flow statement, cash and cash equivalents are stated net of bank overdrafts.

Financial assets available for sale

Financial assets available for sale are mainly comprised of the Group's equity holdings in non-consolidated companies.

Available for sale assets are measured on the balance sheet at fair value, and changes in value are recognized directly in equity except where an impairment test leads to the recognition of an ongoing unrealized loss relative to historical cost, in which case the impairment is recognized through profit or loss.

Amounts recognized in equity are taken to profit or loss upon disposal of available for sale financial assets. Fair value corresponds to the market price for listed securities or to estimated fair value for unlisted securities, determined in accordance with the financial criteria most appropriate to the circumstances of each investment.

Non-derivative financial liabilities

The Group has the following non-derivative financial liabilities: financial borrowings and debts, bank overdrafts, trade payables. After initial recognition at fair value less transaction costs, corresponding to the consideration received, these financial liabilities are measured at amortized cost under the effective interest method.

The effective interest rate is the rate in which the discounted estimated future cash outflows over the expected life of the financial liability equals the net carrying value upon initial recognition.

Purchase of own equity instruments

If the Group acquires its own equity instruments, the value of the consideration paid, including directly attributable costs, are recognized in equity, net of tax.

Derivative financial instruments and hedge accounting

As a reminder, when subscribing to interest rate hedging derivatives instruments, the Group applies the principles of hedge accounting, as defined by IFRS standards.

Hedge accounting can only be applied to a hedging relationship if all of the following criteria are met:

- the hedging relationship only includes qualifying hedging instruments and qualifying hedged items;
- the hedging relationship is from the beginning established through a formal designation and structured documentation describing the hedging relationship as well as the entity's objective in terms of risk management and its hedging strategy;
 - the hedging relationship satisfies all of the following hedge effectiveness constraints:
 - there is an economic link between the hedged item and the hedging instrument;
 - the effect of credit risk does not predominate over the changes in value resulting from this economic link; and
 - the hedge ratio of the hedging relationship is equal to the ratio between the quantity of the hedged item that is actually hedged by the entity and the quantity of the hedging instrument that the entity actually uses to hedge this quantity of the hedged item.

Derivatives are initially recognized at fair value; attributable transaction costs are recognized in profit or loss when incurred. After initial recognition, derivatives are measured at fair value and the resulting changes are recognized according to the terms described below:

- The part of the gain or loss on the hedging instrument that is considered to constitute an effective hedge must be recognized in other comprehensive income (OCI).
- Any residual gain or loss on the hedging instrument represents hedge ineffectiveness and must be recognized in profit or loss.

Derivative instruments are valued at fair value and classified at level 2 of the hierarchy defined by IFRS 13: they are recognised in balance sheet at their fair value including the effect of the Group's net exposure to the counterparty credit risk (for asset derivative financial instruments) or the counterparty's net exposure to the Group credit risk (for liability derivative financial instruments). This credit risk estimate is based on likelihood of default observed in the market for Groups with a similar rating TDF Infrastructure SAS Group and on an estimation of recoverability rate specific to the TDF Infrastructure SAS Group.

Types of hedges

Fair value hedges aim to hedge exposure to changes in fair value that might affect a recognised asset or liability or an unrecognised firm commitment where such changes are attributable to a particular risk and may affect earnings. The Group has no fair value hedges.

Cash flow hedges are intended to cover exposure to fluctuations in cash flows or to net foreign investments attributable to a particular risk associated with a recognised asset or liability that may affect earnings. The contractual flows associated with interest rate swaps are paid at the same time as those associated with floating rate borrowings, and the amount deferred in equity is taken to profit or loss over the period in which the interest on borrowings impacts profit or loss.

Hedges of the net investment in a foreign operation are intended to cover the risk of a diminution in the value of assets in the event of a fall in the exchange rate of the currency in which the financial statements of the subsidiary are established.

Effectiveness tests

Two types of tests exist:

<u>Prospective tests:</u> prospective tests are performed using the so-called "change in fair value changes" method. At each reporting date, a computation is made applying the new interest rate environment to demonstrate that the change in the present value of the hedged items (i.e., interest coupons) is correlated to the change in the present value of the variable portion of the hedging instrument.

<u>Retrospective tests</u>: retrospective tests are performed using the so-called "hypothetical derivative" method, which compares changes in:

- the value of the actual swap designated as the hedging instrument
- the value of a hypothetical swap that, based on its terms and conditions, hedges perfectly the risk and that had no value at the inception of the hedging relationship.

5. Financial risk management

5.1 Credit risk

The total carrying value of the Group's financial assets represents the maximum exposure to credit risk.

Trade receivables

For some major TV, Radio and Telecom customers, sales invoices are issued in advance in compliance with contractual terms.

Trade receivables are subject to provisions for impairment depending on the risks incurred and on ageing.

Short–term investments

The Group places its cash with investment grade banking institutions, with an objective of generating a secure return. Cash is invested in remunerated accounts, euro-denominated money market UCITS and in term deposits with a maturity of under 3 months.

5.2 Market risk

A. Management of interest rate risk

Exposure to the Group's interest rate risk can be analyzed below:

	Dec	2023	Dec 2022		
In thousands euros	Outstanding	% of the debt	Outstanding	% of the debt	
Fixed interest rate debt	3 494 841	82,3%	2 974 424	78,7%	
Variable interest rate debt	750 300	17,7%	804 037	21,3%	
Total before hedging	4 245 141	100,0%	3 778 461	100,0%	
Fixed interest rate debt	3 834 841	90,3%	3 263 174	86,4%	
Variable interest rate	381 300	9,0%	515 287	13,6%	
Total after hedging	4 245 141	100,0%	3 778 461	100,0%	

As at December 31, 2023, the Group has the following debt outstanding:

- €1 063.6m of shareholder debt with fixed interest rate with Tivana France Holdings (indirect shareholders);
- €2 050m of bond debt with fixed rates (excluding loan issuance costs);
- €300m of variable rate bank debt on Capex Facility 2021;
- €328.9m related to lease liabilities (IFRS 16);
- €445m of floating rate term loan (excluding loan issuance costs) relating to financing line dedicated to Fiber entities activity (see below).

The Group has implemented a floating rate debt hedging policy in order to manage its exposure to interest rate fluctuations, and thus subscribed derivatives instruments to hedge defined tranches of financing line dedicated to Fiber entities activity :

- two interest rate swaps with a fixed rate of 0.9588%,
- one interest rate cap of 0.5% strike to hedge part of the debt from 2023 and for which a premium of 2.2m€ has been paid in 2022.

See the note 9.4.

As of December 31^{st,} 2023, the notional amount hedged by derivative instruments is €369m.

Sensitivity analysis of cash flows for variable rate instruments

As of December 31, 2023

Sensitivity analysis of cash flows for variable rate instruments takes account of all variable flows from derivative and non-derivative instruments. The analysis was carried out on the assumption that the value of financial borrowings and derivatives as of December 31, 2023, remain constant throughout the year.

An increase / decrease of 25 basis points in variable rates would have the following impact on a forward-looking basis on the outstanding debt as of December 31, 2023:

	Dec 2	2023	Dec 2022		
In thousands euros	Net income Equity		Net income	Equity	
Increase of 25 pts in variable interest rate on debt	0	(3 276)	0	(3 842)	
Decrease of 25 pts in variable interest rate on debt	0	3 267	0	3 804	

At December 31, 2023, as at December 31, 2022, derivate financial instruments classified as hedge instruments are recognized at fair value and taking into account the effectiveness tests carried out by the Group, the changes in fair value are recognized in other comprehensive income.

B. Exchange risk

The Group's functional currency is the euro. The Group has a limited exposure to exchange rate fluctuations in other currencies.

5.3 Liquidity risk

To ensure sufficient liquidity, the Group has available resources of €925.7m (€541.8m on December 31, 2022), of which €304.3m can only be used by the Fiber operating segment.

The available liquidity consists of:

- Cash and cash equivalents of €135.7m as of December 31, 2023 (€56.8m on December 31, 2022), of which €14.3m exclusively available for the Fiber operating segment.
- A Revolving Credit Facility negotiated under a "Credit Facility Agreement" signed on July 2023 (see the note 1), for an amount of €325.0m, by TDF Infrastructure SAS to cover its own needs and those of its

subsidiaries in respect of acquisitions, capital expenditure and working capital. This line is not used as of December 31, 2023.

- A new Capex Facility ("Capex Facility 2023") signed on July 10, 2023 (see note 1), for an amount of 175.0m by TDF Infrastructure SAS for the financing or refinancing of the Group's capital expenditure and investments. As of December 31, 2023, this line is not used.
- A credit line, exclusively dedicated to the financing of Fiber operating segment, signed on February 17, 2022, available for €735m by TDF Fibre to ensure both the partial refinancing of the roll-out already made, the development of existing networks and future needs associated with the takeover or rollout of new networks. As of December 31, 2023, this non-recourse facility is used for an amount of €445m only on the term loan.

Contractual maturities of financial debt break down as follows (including interest payments):

	2 0	2 023 Maturities		2 023 N		
In thousands euros	Book value	Cash flow	< 1 year	1 to 5 years	> 5 years	
Financial debts - Nominal	3 942 054	3 942 054	9 232	1 557 272	2 375 550

Trade payables	230 589	230 589	230 589	-			
Total financial liabilities	4 122 233	4 976 240	513 836	1 856 197	2 606 207		

See the notes 5.4 and 10.2 which describe the split, the nature and the characteristics of financial debt.

As of December 31, 2023:

- the shareholder debt, held by Tivana France Holdings for €1 063.6m, has a fixed rate interests of 5.5% and a maturity on March 20, 2030;
- the bond debt, issued on April 7, 2016, for €800m, with a fixed coupon of 2.50% and a maturity on April 7, 2026, has been partially repaid for €150m in July 2023 (see note 1); this debt balance is €650m as of December 2023;
- the bond debt, issued on December 1, 2021, for €800m, has a fixed coupon of 1.750% and a maturity on December 1, 2029;
- the bond debt, issued on July 21, 2023, for €600m, has a fixed coupon of 5.625% and a maturity on July 21, 2028 (see note 1);
- The non-recourse bank debt dedicated to the financing of Fiber operating segment, signed on February 17th, 2022, available for €735m, has been drawdown for €445m, with a 7-year maturity (term on February 17, 2029).

Financial expenses are calculated up to the contractual maturity of the liabilities to which they relate.

Maturities of financial debt (bank and bond debts) correspond to the contractual maturities of that debt, without assuming any early repayment.

Concerning variable interest rate debts associated to derivative instruments, the interests rate retained are:

- the rates after hedging on the hedged part of the debt,
- the rates prevailing at the reporting date, for the non-hedged part of the debt.

Regarding the shareholder loan of €1 063.6m held by Tivana France Holdings, quarterly interests on that debt can be:

- capitalized
- paid
- or the payment can be deferred, without the interests being capitalized.

Therefore, in the liquidity risk disclosure, assumptions taken are the following:

- interests that are neither capitalized nor paid are disclosed with a maturity below one year,
- future interests are supposed to be paid every quarter over the loan length, without considering the deferred payments or capitalization mechanisms that are authorized by the loan contract.

5.4 Indebtedness

The Group has contracted an unsecured senior debt towards bondholders (« bond debt ») and bank lenders (« bank debt »).

Bond debt

The refinancing operation carried out in July 2023 by TDF Infrastructure SAS led to :

- The issue on July 21, 2023 of a new bond of €600 million with fixed coupon of 5,625% and a maturity on July 21, 2028. The characteristics are presented in the tab below,
- On July 24, 2023, a repayment of €150 million as part of the concurrent tender offer on the bond issued on April 7, 2016 (with a maturity in April 2026). The nominal amount of this debt is therefore €650 million after the transaction.

See also note 1.

The characteristics of bond debt of the Group are as following:

In thousands euros	Nominal Amount	Market	Maturity	Fixed coupon	Periodicity payment	Rating clause	Repayment option	
Term debt								
debt issued on April 7,2016	650,0	Euronext Paris	07-avr-26	2,500%	coupon annually paid on April 7	1.25% step up of the annual coupon in case the Group rating becomes lower than BBB- (or rating equivalent to BBB-)		
							Option given to bondholders to call for	
debt issued on December 1,2021	800,0	800,0 Euronext Paris		1,750%	coupon annually paid on December 1	na	an early repayment in case of a change of control (under some conditions)	
debt issued on July 21,2023	ed on July 21,2023 600,0 Euronext Paris 21-juil28 5.6		5.625%	coupon annually paid on July 21	na			
Total bond debt	2 050,0							

Bank debt

Revolving credit facility

Since December 5, 2018, the Group had a revolving credit facility of €250m, negotiated under the "Credit Facility Agreement" and used for an amount of €150m as of December 31,2022.

The refinancing operation carried out in July 10, 2023 led to its replacement by a new revolving credit line for an amount of €325 million. See note 1.

As of December 2023, this line is not used.

The characteristics are presented in the tab below :

In thousands euros	Initial amount	Amount due at Dec 2023	Depending in the group's rating		Margin applied to EURIBOR	Maturity	
			Moody's	Fitch	S&P		
			Baa2 or above	BBB	BBB or above	0,60%	
Revolving Facility	325,0	-	Baa3	BBB-	BBB-	0,70%	10-juil28
			Below Baa3	Below BBB-	Below BBB-	1,10%	
TOTAL revolving debt	325,0	-					

- The contractual maturity is July 10, 2028, with two one-year extension options that can extend the maturity until July 2030;
- This new credit line is at floating rate and contractually provides the application of a margin above EURIBOR depending on the Group's financial rating (0.70% in 2023),
- In addition to the margin, a commission for use is provided in the event of a draw down on the credit line that varies from 0.10% to 0.40% per year depending on the amount of the line used,
- The contract provides for restrictive terms (subject to exceptions contained in the bank agreement) governing, in a similar way to the previous agreement, the possibility for Group companies to perform certain operations,
- It should be noted that given the existence of the non-recourse bank debt dedicated to Fiber operating segment, TDF Infrastructure appointed TDF Fibre and its subsidiaries as « Special Purpose Company » as part of the banking documentation. Therefore, TDF Fibre and its subsidiaries are not included in the financial covenant calculations.

The revolving credit line can be used for general corporate purposes of the Group, including working capital requirements, capital expenditures, acquisitions, or distribution to shareholders.

- The bank agreement also includes a financial covenant to be respected if the credit line is used:
 - A ratio of net debt to EBITDA which must be less than 7.00x.
 - For the calculation of this ratio, certain adjustments, defined in the bank agreement, must be applied,
 - The covenant is calculated and communicated to the lenders' agent every semester, based on June and December financial statements,
 - As of December 31, 2023, the covenant is respected.

Capex facility:

Since March 26, 2021, the Group has a 300 million euros Capex facility negotiated under a syndicated loan ("Capex Facility 2021").

Otherwise, in addition of the existing capex facility, the refinancing operation carried out by TDF Infrastructure SAS on July 10, 2023 led to the subscription of an additional new capex facility line ("Capex Facility 2023") of €175 million.

As at December 31, 2023, main characteristics of those two capex facility credit lines are the following:

In millions euros	Initial amount	Amount due at	Dependin	iting	Margin applied to EURIBOR	Maturity	
		Dec 2023	Moody's	Fitch	S&P		-
			Baa2 or above	BBB	BBB or above	0,95%	
Capex Facility 2021	300,0	300,0	Baa3	BBB-	BBB-	1,10%	26 march 2026
			Below Baa3	Below BBB-	Below BBB-	1,25%	
			Baa2 or above	BBB	BBB or above	1,10%	
Capex Facility 2023	175,0	-	Baa3	BBB-	BBB-	1,25%	10 july 2026
			Below Baa3	Below BBB-	Below BBB-	1,50%	
TOTAL bank debt	475,0	300,0					

Regarding the Capex Facility 2021 :

- As of December 2023, this credit line is totally used;
- The facility is at floating rate, the interest rate provides for a Euribor floor of 0%, so that the overall interest rate (margin + Euribor) paid by TDF Infrastructure will never be lower than the applicable margin;
- The facility agreement provides for restrictive terms (subject to exceptions) governing the possibility for Group companies to perform certain operations.
- It should be noted that given the existence of the non-recourse bank debt dedicated to Fiber operating segment, TDF Infrastructure appointed TDF Fibre and its subsidiaries as « Special Purpose Company » as part of the banking documentation. Therefore, TDF Fibre and its subsidiaries are not included in the financial covenant calculations.

The bank agreement related to the Capex facility 2021 also includes a financial covenant to be respected:

- A ratio of net debt to EBITDA which must be less than 7.00x (against 6.00x as of December 2022).

- For the calculation of this ratio, certain adjustments, defined in the bank agreement, must be applied,
- The covenant is calculated and communicated to the lenders' agent every semester, based on June and December financial statements,
- At end of December 2023, the covenant is respected.

Regarding the Capex Facility 2023 :

- This credit line is note used as of December 2023,
- The contractual maturity is July 10, 2026, with two one-year extension options that can extend the maturity until July 2028,
- The availability period during which the Group can draw on this line extends until July 2025,
- This new facility line is at floating rate and contractually provides the application of a margin above EURIBOR depending on the Group's financial rating (1.25% in July 2023),
- The contract provides for restrictive terms (subject to exceptions contained in the bank agreement) governing, in a similar way to the previous agreement, the possibility for Group companies to perform certain operations,
- It should be noted that given the existence of the non-recourse bank debt dedicated to Fiber operating segment, TDF Infrastructure appointed TDF Fibre and its subsidiaries as « Special Purpose Company » as part of the banking documentation. Therefore, TDF Fibre and its subsidiaries are not included in the financial covenant calculations.

The bank agreement related to Capex Facility 2023, also includes a financial covenant to be respected if the credit line is used:

- A ratio of net debt to EBITDA which must be less than 7.00x,
- For the calculation of this ratio, certain adjustments (similar to existing documentation), defined in the bank agreement, must be applied,
- The covenant is calculated and communicated to the lenders' agent every semester, based on June and December financial statements.
- At end of December 2023, the covenant is respected.

Bank debt line dedicated to Fiber entities

At December 2023, as at December 2022, the Group, through the entity TDF Fibre, has a bank loan, with an available amount of \in 735 million and a 7-year maturity.

The bank debt is composed as follow:

- €700 million of term loan composed by 2 tranches, of which €445 million are used as of December 31, 2023,
- €35 millions of revolving credit line, which is not used as of December 31, 2023. This revolving line is subject to a "clean down" clause which obliges TDF Fibre not to have any outstanding drawdowns during 30 consecutive days at least once per accounting year.

It should be noted that this financing contractually provides for the application of an evolutive margin to the EURIBOR on tranche A of the term debt (2.1% as of December 31, 2023, against 1.95% as of December 31, 2022), as well as on the revolving credit line (2.1% as of December 31, 2023, compared to 1.95% as of December 31, 2022).

The margin applied to tranche B of the term debt remains fixed at the rate of 2.1%.

As defined in the bank agreement, TDF Fibre can use these lines only to finance activities of Group's fiber entities.

The characteristics of this debt are as following:

In thousands euros	Dette projet TDF Fibre	Initial amount	Amount due at December 2023	Margin applied to EURIBOR (3 month & 6 month)	Maturity
	Tranche A	360,0	105,0	2,10%	17-Feb-29
Term Ioan	Tranche B	340,0	340,0	2,10%	17-Feb-29
Revolving	Revolving	35,0	-	2,10%	17-Feb-29
	Total Fiber bank debt	735,0	445,0		

In order to be able to draw on the credit lines dedicated to Fiber entities; certain ratios need to be respected (drawstop ratios) :

- A ratio of net debt to households passed,
- A ratio of net debt to households connected,
- A gearing ratio.

At the end of December 2023, the Group is compliant with these ratios. The drawstop ratios are tested at each drawings until the end of the availability period (i.e., 17 February 2025).

The bank agreement related to credit line dedicated to Fiber entities also includes financial covenants to be respected:

- A loan life coverage ratio higher than 1.35x,
- For the calculation of this ratio, certain adjustments, defined in the bank agreement, must be applied,
- The covenant is calculated and communicated to the lenders' agent every semester, based on the latest business plan submitted to lenders and approved by them, until the end of the availability period (i.e., February 17, 2025),
- As of December 2023, the Group is compliant with the covenants.

5.5 Operational risk

Compliance with Group policies is supported by a program of periodic reviews undertaken by Internal Audit. Conclusions are submitted to the Audit Committee and Group senior management.

The Group has taken out insurance policies to manage liabilities in respect of corporate officers, general third-party liabilities and those concerning vehicle lease contracts, material damages and loss of profits.

6. Operating segments

Pursuant to IFRS 8, the Group reports its results and assets by operating segment. The determination of the operating segments reflects the Group's internal reporting structure. The results of all operating segments are regularly reviewed by Group senior management with a view to assessing their performance and to taking decisions on the resources to allocate to each segment.

Each of the CGUs or group of CGUs corresponds to an operating segment except PSN Infrastruktura and Levira (see note 4.11) which are not presented separately and are part of the Towers segment because they are below the quantitative thresholds required by IFRS 8 (i.e., 10% of revenues, assets and profits, taken individually) and correspond to the aggregation criteria defined by the standard.

This segmentation reflects the fact the Group's operations are focused primarily on the nature and the distinction of costs which are necessary for the infrastructure's deployment, maintenance and operation to be able to provide services to the Group's customers.

Also, the operating segments disclosed highlight the characteristics of the Group's activities, notably for financing purposes of each segment.

Under IFRS 8, the Group discloses revenue by business lines which are broken down as follows:

- Television: carrying and broadcasting digital signals and related services,
- Radio: carrying and broadcasting signals and related services,
- Telecom and Services: hosting of broadcasting and reception equipment on Group's sites (including rooftop and indoor coverage) providing maintenance and engineering services, locating sites, data centers, Edge Computing solutions.
- Fiber (FTTH): roll-out, operation and marketing of optical fiber networks,

Finally, figures disclosed hereafter represent the way the Group activity is reviewed internally, in particular the key indicator « EBITDAaL », which is EBITDA:

- o restated from expenses related to operating leases,
- o restated from charges booked in application of IFRS 2 (which are in the Group's case without cash impact),
- restated from all charges corresponding to severance payments and recognized over the period (legal and transactional severance payments) among the Group, and all fees directly related (lawyers, etc.)

Therefore, indicators below are disclosed without any presentation impact related to operating leases restatement under IFRS 16:

- $\circ \quad \text{Operating cash available after operating leases,} \\$
- o Operating capex excluding increase of Right of use asset,
- Net debt excluding shareholder's loan, accrued interests and lease liability

External net debt disclosed below does not include the fair value of hedging instruments.

7. Discontinued operations, assets held for sale and disposed entities

7.1 Discontinued operations

At December 31, 2023, as at December 31, 2022, the Group does not have any discontinued operations in the meaning of IFRS 5.

7.2 Assets held for sale and disposed entities

At December 31, 2023, the Group does not have any assets held for sale in the meaning of IFRS 5.

Disposal of Monaco Media Diffusion

The entity Monaco Media Diffusion was sold during 2023 first half year. This entity was accounted for under the equity method (see note 1).

As of December 31, 2023 :

- share of net profits of this entity under the equity method amounted to €0.5m,
- share in this entity amounted to €6.5m
8. Notes to the statement of comprehensive income

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Other income	7 609	1 594

Other income and expenses mainly comprise insurance and change in work in progress.

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Business tax	(6 034)	(5 371)
Property tax	(5 828)	(5 189)
Other taxes	(4 474)	(4 076)
Provision on receivables - Prov. for risks and charges	5 320	(404)
Other operating expenses	(2 464)	(4 493)
Other expenses	(13 480)	(19 532)

The line "Provision on receivables – Prov. For risks and charges" includes changes in provision for risks and charges and changes in provisions on trade receivable and other current assets. The provision for risks and charges correspond mainly to allocations for litigation provisions and reversals of provision for dismantling.

8.3 Consumed purchases

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Material purchases	(51 285)	(60 257)
Energy and fuels	(93 767)	(63 835)
Other purchases including change in inventory	(20 715)	(19 492)
Capitalized purchases	36 595	54 157
Consumed purchases	(129 173)	(89 427)

8.4 Personnel costs

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Salaries & wages	(110 606)	(105 038)
Social security contributions	(35 365)	(33 265)
Tax contributions on salaries & wages	(6 922)	(6 715)
Statutory employee profit sharing	(13 606)	(14 020)
Post-employment benefits : defined benefit plans	(1 281)	(2 017)
Post-employment benefits : defined contributions	(10 232)	(9 878)
Share based payments	(185)	(446)
Other personnel costs	(7 262)	(6 438)
Capitalized personnel costs	77 321	67 919
Total personnel costs	(108 139)	(109 898)

Other personnel costs largely comprise of contractual employee profit sharing, various staff expenses (workers' council, lunch contribution, Committees for Occupational Health and Safety etc.), and accruals for vacation and other employee costs.

In addition, personnel costs include \in (1.9)m (\in (2.7)m in 2022) corresponding to severance payments recognized over the period (legal and transactional severance payments) among the Group, and all fees directly related such as legal fees.

8.5 External expenses

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Real estate	(4 126)	(487)
Technical subcontracting	(145 807)	(185 442)
Administrative subcontracting	(20 540)	(19 231)
Expenses linked to personnel	(16 585)	(12 843)
Surveys & consulting fees	(7 033)	(6 604)
External & internal communication costs	(1 543)	(1 390)
Corporate fees	(5 812)	(4 919)
Insurance	(3 449)	(3 752)
Other capitalized charges	132 391	177 460
External expenses	(72 505)	(57 208)

8.6 Profit on disposal of non-current operation assets

Profit on disposals over the various periods disclosed mainly corresponds to assets sales completed by TDF SAS.

8.7 Depreciation, amortization and impairment losses

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Amortisation of intangible assets	(59 056)	(44 229)
Depreciation of tangible assets	(135 095)	(132 185)
Depreciation of assets related to right of use (IFRS 16)	(45 179)	(43 648)
Write-back of investment subsidies	6 320	6 451
Impairment of intangible assets	-	-
Impairment of tangible assets	(127)	254
Depreciation, amortisation and impairment losses	(233 137)	(213 357)

8.8 Other operating income and charges

At December 31, 2023, as of December 31, 2022, other operating income and charges mainly include incomes and costs, which are significant and unusual, and are recognized in non-recurring operating income (below EBITDA, see note 2.1), notably:

- the effects and adjustments related to acquisitions and disposals of entities on the disclosed and previous periods;
- different changes on provisions for dismantling, for which the corresponding asset is fully depreciated, following the update of the best estimate of the outflow related to the future dismantling.

8.9 Net finance costs

Net finance costs can be broken down as follows:

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Revenues from available funds placed	1 628	(42)
Total financial revenue (a)	1 628	(42)
Finance expenses linked to debt : Bond	(47 248) (4 415)	(37 590) (1 255)
Finance expenses linked to debt : Bank debt revolving Finance expenses linked to debt : Shareholder	(65 234)	(68 160)
Finance expenses linked to debt : Capex Facility	(13 495)	(4 001)
Finance expenses linked to debt : Fiber project	(16 135)	(10 911)
Finance expenses linked to debt : Financial lease	(1 326)	(927)
Finance interests linked to lease liability : IFRS 16	(18 494)	(17 927)
Finance expenses linked to debt : Other debts	(2 936)	(3 123)
Refinancing costs	2 714	(14 891)
Result on financial instruments measured at amortized cost (b)	(166 569)	(158 785)
Capitalisation & amortisation of loan issue expenses (c)	(832)	10 221
Profit (loss) related to derivatives (d)	-	-
Total finance expenses (e) = (b) + (c) + (d)	(167 401)	(148 564)
Net financial debt cost (a) + (e)	(165 773)	(148 606)

Concerning the shareholder loan of €1063.6m towards Tivana France Holdings (amount unchanged vs 2022), quarterly interests on that debt can be:

- \circ capitalized
- o paid
- \circ or the payment can be deferred, without the interests being capitalized.

Regarding financial expenses linked to bond debt, the changes between the two periods disclosed is mainly explained by the additional bond issuance of €600 million, with a fixed coupon of 5.625% carried out in July 21, 2023 (see note 1).

Regarding financial expenses linked to bank debt Revolving and Capex Facility, the changes between the two periods disclosed is in relation with debt drawdowns carried out on these credit lines (see note 10.2 and 12.4) and the changes in euro zone EURIBOR interest rates.

Refinancing costs and capitalization & amortization of loan issue expenses are impacted by :

- In 2023 :
 - the non-recurring income for €7.7m (repayment premium) relating to the concurrent tender offer carried out on July 24, 2023 on a part of the €600 million bond debt with maturity on April 17, 2026 (see note 1),
 - the one-time amortization for €0.7m of issuance costs related to the partial repayment of the bond debt above for €150m,
 - the new costs which have been activated for the bond issuance of July 21, 2023, for €2.8m (excluding issue discount, directly recognized in financial debt),
 - the signing of the new capex facility, generating new issuance costs for €0.9m, which have been capitalized in reduction of the bank debt,
 - the signing of the new revolving credit line, generating new issuance costs for €1.4m, which have been capitalized in reduction of the bank debt,
 - the one-time amortization for €0.4m related to the replacement of the old revolving credit line following the refinancing operation carried out in July 2023.
- In 2022, the signing of the bank debt dedicated to Fiber entities activity, having generated issuance costs for €14.7m, which had been capitalized in reduction of the debt.

The line « finance expenses linked to debt : Fiber project » discloses interest on the bank debt included the result (gains and losses) of corresponding hedging instruments' portfolio (see notes 5.2 et 9.4).

See notes 5.4 and 10.2 describing the change in financial debt and their characteristics.

At December 31, 2023, excluding shareholder debts and IFRS 16 lease liability, the average interest rate on financial debt is 3.32% (2.51% at December 31, 2022), including financing and interest rate hedging costs.

Other financial income and charges are as follows:

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)			
Net discounting costs excluding net debt	(14 693)	(9 281)			
Forex gains (losses)	20	(24)			
Other financial expenses & Income	(241)	(1 031)			
Other financial revenues / charges	(14 914)	(10 336)			

Net discounting costs is mainly related to the discounting effect on provisions and deferred income.

Finance income and expenses recognized under other comprehensive income are as follows:

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Currency translation differences for foreign operations	115	(4)
Net change in fair value of cash flow hedges transferred to profit or loss	(17 522)	42 062
Income tax on other comprehensive income	4 526	(10 865)
Finance income and expenses recognised in other comprehensive income	(12 881)	31 193

8.10 Income tax

From April 1, 2015, a tax consolidation group was created headed by Tivana France Holdings (single shareholder of TDF Infrastructure Holding SAS since March 31, 2015, itself sole shareholder of TDF Infrastructure SAS). All French entities owned directly or indirectly at least 95% by Tivana France Holdings SAS are included in the tax group.

The scope of the tax consolidation group being therefore greater than the consolidation of TDF Infrastructure SAS group, it should be noted that the effects of the tax consolidation (recognition of the tax group benefit and the Tax Group's tax loss carried forward) are not recognized in these consolidated financial statements. On the contrary, each entity calculates its tax expense on its own and recognizes its tax loss carried forward (or not) on its own, according to its own results and its own perspective to use or not the tax loss carried forward which it generates.

Since January 1st, 2023, a new tax consolidation group has been created headed by TDF Fibre. All subsidiaries of TDF Fibre (Val d'Oise Fibre, Yvelines Fibre, Val de Loire Fibre, Anjou Fibre et FG Fibre) are directly owned at 100% and thus included in this tax consolidation group ("Fiber tax group").

Thus, as of December 31, 2023, the income taxes of the above entities are determined and analyzed within the limits of the new tax group scope. In particular, the tax group benefit generated over 2023 is of $\in 0.8$ m.

The income tax is summarized below:

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Current tax expense	(60 696)	(65 617)
Other income tax expense	(2 670)	(4 159)
Deferred tax expense	(537)	4 211
Total income tax	(63 903)	(65 566)

Note that of the €60.7m of current tax expense mentioned above (€65.6m as of December 31, 2022), that €58.9m relate to TDF SAS (€61.2m as of December 31, 2022) and are offset at the tax consolidation group level by losses generated by other companies, such as Tivana France Holdings SAS, TDF Infrastructure Holding SAS and TDF Infrastructure SAS (see below).

Income tax recognized in other comprehensive income is summarized below:

	Dec 2023 (12 Months)		Dec 20	22 (12 Mo	onths)	
In thousands euros	Pre-tax	Tax (Expense) / Credit	Net of tax	Pre-tax	Tax (Expense) / Credit	Net of tax
Currency translation differences for foreign operations	115		115	(4)		(4)
Cash flow hedges	(17 522)	4 526	(12 996)	42 062	(10 865)	31 197
Actuarial gains on defined benefit plan	120	(31)	89	1 966	(508)	1 458
Others			-			-
Total	(17 287)	4 495	(12 792)	44 024	(11 372)	32 652

The reconciliation between the theoretical income tax and the actual income tax recognized is provided below:

	Dec 2023 (12 Months)		Dec 2022 (12 Months)	
In thousands euros	Value	Rate	Value	Rate
Profit (loss) for the period	58 645		67 890	
Total income tax for the period	(63 903)		(65 566)	
Profit (loss) excluding income tax	122 548		133 456	
Theoretical income tax based on the French statutory income tax rate	(31 654)	25,83%	(34 472)	25,83%
Non-deductible interest	(10 470)	8,54%	(9 796)	7,34%
Other income tax expenses (CVAE, etc)	(1 784)	1,46%	(2 893)	2,17%
Impact of disposals of entitoies, of goodwill impairment and non deductible provisions	(226)	0,18%	72	-0,05%
Impairment of tax loss carried forward	(19 520)	15,93%	(19 591)	14,68%
Effect of difference in foreign tax rates (theoretical rate)	-		9	-0,01%
Deferred tax on "CVAE" (1)	232	-0,19%	447	-0,33%
Other permanent differences	471	-0,38%	(1 166)	0,87%
Effect of tax rate changes	(335)	0,27%	1 615	-1,21%
Others	(617)	0,50%	209	-0,16%
Actual income tax	(63 903)	52,15%	(65 566)	49,13%

1) This deferred tax income relates to the Group decision to classify CVAE as income tax.

As of December 31, 2023, the changes related to depreciation or non-recognition of tax loss carried forward assets are notably linked to TDF Infrastructure SAS (€19.4m as of December 31, 2023 vs €17.5m as of December 31, 2022). These deferred tax assets are not recognized, since these entities do not have strong enough forecasts demonstrating consumption of tax loss carried forward but note that a tax consolidation is actually done above TDF Infrastructure SAS level (see above).

As of December 31, 2022, the effects of tax rate change correspond to the decrease over the period of the deferred tax liability related to the CVAE. Given the adoption of the French tax law as of December 30th 2022, which enacts a reduction in the CVAE contribution in 2023 then a scheduled abolition from 2024, the Group has therefore valued the corresponding deferred tax liability reversing after January 1, 2023, taking into account this gradual extinction of the CVAE.

As of December 31, 2023, the effects of tax rate change correspond to the reconstitution of deferred tax liability related to CVAE for €0.3m following the postponement of the abolition of the CVAE enacted by the 2024 French tax law.

See also the note 10.5 relating to the valuation of deferred tax basis.

Moreover, on the basis of 2023 financial statements, the sensitivity analysis carried out by the Group, in application of the Pillar 2 temporary simplification measures, have shown that none of the Group's tax jurisdictions would be in a position to recognize an additional "Top-Up tax" as from 2024.

9. Notes to the balance sheets: assets

Except for deferred taxes that are classified as non-current assets or liabilities, assets and liabilities are classified as current when the amounts are expected to be recovered or settled no more than 12 months after the reporting date. If this is not the case, they are classified as non-current.

9.1 Goodwill

In accordance with the operating segments presented (see note 6) and the application of IFRS 8, the CGUs or groups of CGUs that were selected for goodwill impairment testing are Towers France, Fiber, PSN Infrastuktura and Levira.

At December 31, 2023, the Group goodwill breaks down by CGU or group of GGUs as follows:

In thousands euros	Dec 2022	Change in consolidation scope : acquisitions	Impairment losses	Dec 2023
Towers France	1 716 612	-	-	1 716 612
Total	1 716 612	-	-	1 716 612

At December 31, 2022, Group goodwill breaks down by CGU or group of GGUs as follows:

In thousands euros	Dec 2021	Change in consolidation scope : acquisitions	Impairment losses	Dec 2022
Towers France	1 737 634	(21 022)	-	1 716 612
Total	1 737 634	(21 022)	-	1 716 612

The CGU Towers France goodwill decrease concerned the purchase price allocation work performed concerning the acquisition of Torm, pursuant to IFRS 3, which led to reduce the goodwill by €21m.

As a reminder, the Group obtained a sale agreement (call option), exercisable from May 31, 2024, concerning the 30% of the entity still held by the historical shareholder. In accordance with IFRS 3, the sale agreement exercise has been valued in the Group's financial statements.

A. Impairment test at December 31, 2023

In compliance with IAS36, the Group has performed an impairment test of goodwill at 2023 closing date.

To determine the recoverable amounts of each CGU used for the impairment test, the Group relied on business plans of the various CGUs. The Group has established its business activity forecasts regarding all macroeconomic factors observed, in particular the impacts related to inflation (see note 1).

Thus, the impairment tests carried out on the basis of forecasts which are currently planned for the Group's activity, did not lead to the recognition of impairment losses as of December 31, 2023.

B. Impairment test at December 31, 2022

In compliance with IAS36, the Group has performed an impairment test of goodwill at 2022 closing date.

To determine the recoverable amounts of each CGU used for the impairment test, the Group relied on business plans of the various CGUs. These impairment tests did not lead to the recognition of impairment losses as of December 31, 2022.

C. Assumptions underlying the impairment tests as of the reporting date

As of December 31, 2023, in accordance with the operating segments presented (see note 6) and the application of IFRS 8, the CGUs or groups of CGUs that were selected for goodwill impairment testing are Towers France, Fiber, PSN Infrastuktura and Levira.

Dec 2023	Recoverable value based on	Projected periods	Discounting rates (WACC)	Long term growth rates
Towers France Fiber Levira PSN Infrastructura	Value in use based on discounted cash flows	10 years 25 years 5 years 5 years	7,0% 7,0% 11,5% 9,5%	1,75% 1,75% 1,75% 1,75%
Dec 2022	Recoverable value based on	Projected periods	Discounting rates (WACC)	Long term growth rates
Towers France Fiber Levira	Value in use based on	10 years 25 years 5 years	7,0% 7,0% 11,5%	1,75% 1,75% 1.75%

The discount rate corresponds to the weighted average cost of capital, determined based on observable market data, in particular a sample of comparable listed companies carrying on business as operators in the fields of satellites and telephone, radio or television infrastructures/networks. The rate is an after-tax rate applied to the after-tax cash flows.

D. Sensitivity analysis

Sensitivity analysis was carried out on the key assumptions (+ or -0.5 pt. on discount rate, + or -0.5 pt. on growth rate to infinity and + or -1.0 pt. on the EBITDA margin terminal value) both individually and using a combination of scenarios.

At December 31, 2023, reasonable potential changes in key assumptions listed above would have no impairment impact on Towers France, Fiber, Levira and PSN Infrastruktura CGUs.

At December 31, 2022, reasonable potential changes in key assumptions listed above would have no impairment impact on Towers France, Fiber, Levira and PSN Infrastruktura CGUs.

Otherwise, scenarios based on business plans of the Group, in particular if they are related to factors and assumptions resulting from the evolution of the inflationary economic context, do not generate any significant sensitivity on the impairment tests as of December 31, 2023, as of December 2022.

9.2 Intangible assets

Intangible assets are analyzed below:

In thousands euros	Capitalized development expenditure & Patents	Backlog	Customer relationship	Others	Total
Gross value at December 31,2021	35 705	14 200	325 200	783 485	1 158 589
Acquisitions	453	-	-	190 589	191 042
Disposals	(252)	(14 200)	(99 300)	(3 754)	(117 506)
Reclassifications	102	-	-	2 297	2 399
Other changes in consolidation scope	-	11 992	-	0	11 992
Currency translation adjustments	-	-	-	(2)	(2)
Gross value at December 31,2022	36 008	11 992	225 900	972 617	1 246 514
Acquisitions	910	-	-	137 998	138 908
Disposals	(28 856)	-	-	(4 437)	(33 293)
Reclassifications	1 222	-	-	6 526	7 748
Changes in consolidation scope	-	-	-	(0)	(0)
Currency translation adjustments	-	-	-	13	13
Gross value at December 31,2023	9 284	11 992	225 900	1 112 717	1 359 890

As of December 31, 2023, and 2022, acquisitions of intangible assets mainly include completed or in progress rollout of fiber optic networks in sparsely populated areas, in accordance with IFRIC 12 standard (Service Concession Arrangements) which is into force for this activity.

As of December 31, 2022,

- disposals of intangible assets included:
 - €99.3m of IFRS intangible assets related to Television customer relationship, which were recognized following the constitution of the TDF Infrastructure Group in January 2007, in accordance with IFRS 3 and the goodwill allocation principles (PPA Purchase Price Allocation). These fixed assets have since 2007 been fully amortized and have therefore been written off.
 - €14.2m of IFRS intangible assets, related to the backlog of broadcasting activity exercised by ITAS TIM and One Cast entities (now merged in TDF SAS), which were recognized following the acquisition of ITAS Group in 2016, in accordance with IFRS 3 and the goodwill allocation principles (PPA Purchase Price Allocation). These fixed assets have since 2016 been fully amortized and have therefore been written off.
 - The changes in consolidation scope effects corresponded to the purchase price allocation work performed concerning the acquisition of Torm, which led to the recognition of a backlog, which fair value determined at May 31, 2021, represent a global amount of 12 million before tax and amortized on 20 years.

Order backlog and customer relationships

As part of the purchase price allocation process, the Group recorded an order backlog and customer relationships, which are amortized over periods ranging from 3 to 7 years and 20 to 26 years, respectively.

"Others"

As of December 31,2023, it includes:

- €208.5m of software (€193.4m at December 31, 2022),
- €28.8m of TDF trademark with an indefinite life (same as at December 31, 2022),
- intangible assets relating to completed or in progress roll-out of fiber optic networks in sparsely populated areas, in accordance with IFRIC 12.

Intangible assets accumulated amortization and impairment are broken down as follows:

In thousands euros	Capitalized development expenditure & Patents	Backlog	Customer relationship	Others	Total
Amortisation at December 31, 2021	(28 294)	(14 200)	(160 203)	(220 201)	(422 898)
Charge of the period	(3 220)	(948)	(7 907)	(32 155)	(5 629)
Disposals	252	14 200	60 700	3 754	78 906
Reclassifications	-	-	-	-	-
Other changes in consolidation scope	-	-	-	0	0

Changes in consolidation scope	-	-	-	-	-
Currency translation adjustments	-	-	-	-	
Impairment losses at December 31, 2022	-	-	(61 798)	(5 858)	(67 656)
Charge of the period	-	-	-	-	-
Disposals			-		-
Changes in consolidation scope	-	-	-	-	-
Currency translation adjustments	-	-	-	-	-
Impairment losses at December 31, 2023	-	-	(61 798)	(5 858)	(67 656)
Carrying amount at December 31,2022	4 746	11 043	56 693	718 160	790 642
Carrying amount at December 31,2023	3 454	10 443	49 061	815 285	878 243

Impairment of intangible assets

TDF's trademark, which has an indefinite life, is subject to an annual impairment test.

The following were the main assumptions used as of December 31, 2023:

	France
Recoverable value based on	Fair value
Valuation Method	Royalties
Projected periods	10 years
Discount rates	7,00%
Long term growth rates	1,75%
Royalty rate on the revenues	0,30%

The net book value of the TDFs trademark amounts to €23.0m. Sensitivity analysis carried out showed that any deterioration in the key criteria would not lead to further impairment.

December 31, 2023

As of December 31, 2023, impairment tests did not lead to the recognition of any impairment on intangible assets. In particular, on the basis of its business activity forecasts and regarding all the macroeconomic factors observed, the Group did not conclude to the occurrence of indicator of loss of value whose requires specifics impairments tests on intangibles assets.

The different scenarios and sensitivities used do not generate any impact calling into question the impairment tests.

December 31, 2022

As of December 31, 2022, impairment tests did not lead to the recognition of any impairment on intangible assets.

9.3 Property, plant and equipment

Property, plant and equipment are summarized below:

In thousands euros	Land & buildings	Broadcasting network	Office furniture, office and computer equipment	Others	Total
Gross value at December 31,2021	1 229 052	1 959 520	56 493	653 300	3 898 366

Broadcasting networks comprise of pylons, antennas, transmitters, microwave links and site fixtures, satellite equipment (terrestrial stations), pre-broadcasting equipment for master control rooms.

"Other" includes especially:

- assets related to completed or in progress roll-out of fiber optic networks in sparsely populated areas, which do not meet terms of IFRIC 12 standard,
- vehicles, equipped vehicles and assets in progress.

Tangible assets notably include assets recognized under the right of use (IFRS 16), thus presented in Land-Buildings and Other tangible assets.

As a reminder, as of December 31, 2022, changes in consolidation scope effects correspond to the purchase price allocation work performed concerning the acquisition of Torm, which led to the recognition of certain tangible assets, which fair values determined at May 31, 2021, represent a global amount of 17.6 million before tax.

9.4 Derivative financial instruments

In the context of bank financing dedicated to fiber activity by TDF Fibre, the Group has implemented a variable rate debt hedging policy in order to manage its exposure to interest rate fluctuations.

Interests on bank debt dedicated to Fiber entities activity are calculated based on EURIBOR (3 and 6 months) plus margin, as described in the note 5.4.

Thus, the Group subscribed derivative instruments to hedge defined tranches of the bank debt:

- two swaps with a fixed rate of 0.9588%,
- one cap of 0.5% strike to hedge one part of the debt from 2023 and for which a premium of 2.2m€ has been paid in 2022.

Derivative financial instruments are recognized at fair value, and their characteristics as of December 31, 2023, are as follows:

Dec 2023	Notional am	Notional amount of interest rate hedging contracts by maturity date				Derivatives Fair value (Excluding Accrued interest)	
In thousands euros	Total	< 1 year	Assets	Liabilities			
Cash flow hedging							
Lender swap fixe rate (0,9855%) / borrower floating rate	340 000		340 000		21 943	}	
Lender Cap * / borrower floating rate	29 000	29 000		4 742	2		
					26 685		

The notional amount of hedging instruments changes over time depending on the planned financing drawdown by the Fiber segment, in order to maintain the required level of hedged debt, in particular concerning the cap which took effects in June 2023.

9.5 Financial assets available for sale

9.6 Inventories

		Dec 2023			Dec 2022	
In thousands euros	Gross	Depreciation	Net	Gross	Depreciation	Net
Inventories, including items in progress	16 806	(3 316)	13 489	15 563	(3 288)	12 276
Total inventories	16 806	(3 316)	13 489	15 563	(3 288)	12 276

Inventories are composed of spare parts for which use (consumption, capitalization or sale) is not specifically identifiable.

Inventories are measured at their weighted average unit purchase cost. Where the future use of an inventory item is uncertain, it is subject to an impairment adjustment, if necessary, to reduce its carrying value to its recoverable amount.

Assets that qualify as safety inventories are accounted for as property, plant and equipment.

9.7 Trade receivables and other current and non-current assets

	Dec 2023				Dec 2022	
In thousands euros	Gross	Depreciation	Net	Gross	Depreciation	Net
Trade accounts receivables	218 606	(6 706)	211 900	165 465	(6 603)	158 862
Trade receivables on disposal of assets	114	-	114	114	-	114
Total trade accounts receivables	218 720	(6 706)	212 014	165 579	(6 603)	158 976

Trade receivables impairment is based on the probability of bad debt occurrence.

The breakdown of past due amounts on trade receivables are as follows:

	Dec 2023	Dec 2022
	Net	Net
Not yet due	199 144	148 773
Less than 3 months past due	9 070	7 858

9.8 Cash and cash equivalents

The Group's cash is largely denominated in euros.

In thousands euros	Dec 2023	Dec 2022
Cash and cash equivalents	135 626	56 843
Bank overdrafts used for cash management purposes	-	-
Cash of continued activities	135 626	56 843

10. Notes on the balance sheet: equity and liabilities

Except for deferred taxes that are classified as non-current assets or liabilities, assets and liabilities are classified as current when the amounts are expected to be recovered or settled no more than 12 months after the reporting date. If this is not the case, they are classified as non-current.

10.1 Share capital and reserves

TDF Infrastructure SAS has a share capital of €300,000 thousand, divided into 10.000.000 shares, entirely owned by TDF Infrastructure Holding SAS.

TDF Infrastructure Holding SAS is wholly owned by French entity Tivana France Holdings. At December 31, 2023, as at December 31, 2022, Tivana France Holdings has a share capital of \in 9.392.243 divided into 9.392.243 shares with a nominal value of 1 \in each, fully paid and divided into two categories of shares:

- 9.254.243 ordinary shares, with voting rights and dividend rights, all held by Tivana Midco S.à.r.I., itself indirectly owned at 45% by Brookfield Infrastructure Group, 22.5% by Public Sector Pension Investment Board (PSP Investments), 22.5% by APG Asset Management N.V., and 10% by Prévoyance Dialogue du Crédit Agricole – Predica SA
- 138.000 preference shares of category M, governed specifically by Articles L.228-11 and seq of the French Commercial Code and the stipulations of Tivana France Holdings' articles of association, with no voting right, no dividend right, but that have a liquidation bonus calculated by comparison between the Group's value (based on its value in use, or on its purchase price in case of a disposal of the Group) and a minimum expected return.

Consolidated reserves are composed as follows:

A. Currency translation reserve

The currency translation reserve comprises of the total accumulated exchange differences arising from the translation of the financial statements of the Group's foreign operations and of financial liabilities designated as hedges of net investments in foreign operations.

B. Cash flow hedging reserve

The cash flow hedging reserve represents the cumulative portion of gains and losses on cash flow hedging instruments that have been deemed effective.

C. Other reserves

Other reserves include:

- a reserve for actuarial differences;
- changes in consolidation scope relating to changes in minority interests.

10.2 Financial debt

As of December 31, 2023, the main part of financial debt consists of unsecured senior external debt held by bondholders (bond debt), bank debt, Fiber non-recourse project debt, as well as a shareholder loan. Overall, the Group's financial debt is analyzed and has varied as described below:

In thousands of euros	Dec 2022	Increase	Decrease	Others	Dec 2023
Bond	1 589 963	596 135	(146 986)	-	2 039 112

Financial debt	3 483 140	695 569	(371 265)	(28 982)	3 778 462

Bond debt

TDF Infrastructure SAS has issued a bond for €800m on April 7, 2016, one for €800m on December 1, 2021 and another one for €600m on July 21,2023 (see characteristics disclosed in the note 5.4).

The bond issue of July 2023 was carried out simultaneously with the concurrent tender offer on a part of the bond debt issued in 2016, which was repaid for €150m and whose debt balance is thus €650m as of December 31, 2023 (see notes 1).

The bond issue expenses (including issue discount) disclosed as a deduction from the debt balance (according to effective interest rate IFRS method) amount to €10.9m as of December 31, 2023 (€10m as of December 31, 2022).

Bank debt

Revolving credit line subscribed as part of the "Credit Facility Agreement" (December 5th, 2018)

At December 31, 2022, revolving line was used for €150m. This line has been totally repaid and cancelled following bank financing operations of July 2023 (see note 1).

New Revolving credit line subscribed as part of the "Credit Facility Agreement" (July 10th, 2023)

The refinancing operation carried out in July 2023 (see note 1) led to the subscription of a new revolving credit line for an amount of \in 325 million, for which the contractual maturity is July 10, 2028, with two one-year extension options that can extend the maturity until July 2030. As of December 2023, this line is not used.

Capex facility line (Capex Facility 2021)

On March 29, 2021, the TDF Infrastructure SAS Group signed a syndicated €300 million acquisition and capex facility. As of December 31, 2023, this line is fully used.

On February 20th, 2023, TDF Infrastructure SAS obtained the agreement from all lenders concerned, allowing to exercise a one-year extension option bringing to March 26, 2026, the maturity of this credit line (see note 1 and 5.4).

Capex facility line (Capex Facility 2023)

In the context of the refinancing operation carried out in July 2023 (see note 1), the Group signed an additional syndicated €175 million capex facility agreement ("Capex Facility 2023"), for which the contractual maturity is July 10, 2026, with two one-year extension options that can extend the maturity until July 2028. As of December 2023, this line is not used.

Bank debt line dedicated to Fiber entities

The Group, through the entity TDF Fibre, has a non-recourse bank loan, with an available amount of €735 million and a 7-year maturity.

- The bank debt is composed as follow:
 - €700m of term loan composed by 2 tranches,
 - €35m of revolving credit line.

See also the note 5.4.

As of December 31^{st,} 2023:

- the term loan is used for €445m,
- the revolving credit line is not used.

The bond issue expenses (including issue discount) disclosed as a deduction from the debt balance (according to effective interest rate IFRS method) amount to €12.2m as of December 31, 2023.

Shareholders loan

The Group concluded a loan with Tivana France Holdings (sole shareholder of TDF Infrastructure Holding SAS) for €1 063.6m (fixed rate of 5.5%, maturity of March 2030).

Interests on this loan are disclosed on the line accrued interests at the bottom of the balance sheet.

Operational investments debts

As part of the development of the fiber business within the Group, the companies dedicated to the roll-out of optical fiber networks are required, in accordance with the applicable accounting standards, to recognize as investments debts, since the beginning of each public delegation contract, certain specific fees that will be paid to the local authorities.

The discounted amount of outstanding fees at December 31, 2023, is of €24.1m.

Lease liability (IFRS 16)

In accordance with the application of IFRS 16, a financial debt is recognized under the lease liability.

- In relation with the principles of the standard:
 - New leases concluded during the period are recognized as an increase in lease liability for the present value of expected payments,
 - Decrease in lease liability represents the part of rental paid on the period and affected to the repayment of the financial debt, after deduction of the interest expenses (see the note 8.9).

Other financial debts

As of December 31, 2023, as of December 31,2022, other financial debts consist mainly of shareholder loans granted for an amount of \in 46.5m to the entity TDF Fibre by Caisse des Dépôts, following an equity investment of 20,5% in this entity (\in 44.5m as of December 2022).

Financial debt (excluding accrued interest) is analyzed by maturity below:

In thousands euros	Dec 2023	< 1 year	1 to 5 years	> 5 years

Bank debt	448 489	-	448 489	-
Fiber project debt	335 931	-	-	335 931
Shareholders' debt	1 063 599	-	-	1 063 599
Finance lease debt	6 311	2 338	3 946	27
Operational investments debts	16 550	763	2 773	13 014
Lease liability (IFRS 16)	269 807	49 345	133 652	86 810
Other financial debts	47 812	3 578	-	44 234
Financial debt	3 778 462	56 024	1 384 626	2 337 812

As of December 31, 2023:

- shareholder debt of €1 063.6m bears 5.5% fixed rate interest and has a maturity of March 20, 2030;
- the bond debt of €650m issued on April 7, 2016 has an annual fixed coupon of 2.50% and a maturity on April 7, 2026;
- the bond debt of €800m issued on December 1,2021 has a fixed coupon of 1.750% and a maturity on December 1, 2029;
- the bond debt of €600m issued on July 21, 2023 has a fixed coupon of 5.625% and a maturity on July 21, 2028;
- the bank debt (excluding bank debt dedicated to fiber activity) is used for €300 million on the Capex Facility 2021 (i.e., the full amount available) with a floating rate and maturity of March 26, 2026. The revolving credit line and the Capex Facility 2023 are not used as of December 31, 2023;
- the bank debt dedicated to Fiber entities activity has been drawn down for €445m on term loan, with a 7-year maturity (term on February 17, 2029). Revolving credit line dedicated to fiber activity is not used as of December 31, 2023 (see note 5.4 about the characteristics of this debt).

10.3 Employee benefits

Employee benefits are provided through both defined contribution and defined benefit plans. Under a defined contribution plan, the Group is only obliged to pay contributions. Contributions paid in respect of these plans are recognized in profit or loss when incurred.

Post-employment benefit plans

Defined benefit plans are subject to actuarial measurement using the projected unit credit method. Under the projected unit credit method, each period of service gives rise to an additional unit of benefit entitlement and each unit is measured separately to calculate a liability, which is then discounted.

These actuarial calculations include demographic assumptions (retirement date, rate of increase in salaries, rate of employee turnover) and financial assumptions (discount rate, rate of inflation) defined at the level of each entity considering the local macroeconomic environment.

All actuarial gains and losses are recognized in other comprehensive income.

Termination benefits

Where applicable, benefits arising from the termination of an employment contract are measured and provided for to the extent of the resulting liability. Where termination benefits fall due more than 12 months after the reporting date, they are discounted to their present value.

Short-term employee benefits

Short-term obligations are not discounted and are recognized when the corresponding service is rendered.

Share-based payments

If payment results in the delivery of equity instruments, the fair value of share-based payments at the grant date is recognized as a personnel expense, with a corresponding increase in equity, over the period during which the equity instruments vest in favor of the employee.

If payment results in a cash settlement, the fair value of amounts due to employees is recognized as personnel expense, with a corresponding increase in financial liabilities over the period in which the rights vest. The fair value of this liability is revalued each year.

A. Post-employment benefits

The amounts shown in the balance sheet which relate to the provision of retirement indemnities are as follows:

In thousands euros	Dec 2023	Dec 2022
Present value of the defined benefit obligation	34 469	34 311
Fair value of plan assets	-	(2 052)
Provision recognised for defined benefit obligations	34 469	32 259

The maturity profile of the expected discounted cash flows on these provisions is as follows:

In thousand euro	Dec 2023	< 1 year	1 to 5 years	> 5 years
France Others	34 454 15	940	10 090 3	23 424 12
Provision recognised for defined benefit obligations	34 469	-	10 093	24 376

The main employee benefit plans concern retirement benefits in France.

Retirement benefits are valued based on a collective workforce agreement or a company agreement and the legal age of retirement is assumed to be 65 years.

TDF SAS, which represents 95% of the benefit obligations in France as of December 31, 2023, applies an adapted agreement of the National Telecommunication Collective Agreement. The retirement benefit paid out depends on employee's length of service and last salary prior to retirement:

- 2% of gross annual salary after 9 years length of service (after the employee entered the company),
- 20% of gross annual salary after 10 years length of service,
- 25% of gross annual salary after 15 years length of service,
- 40% of gross annual salary after 20 years length of service,
- 50% of gross annual salary after 25 years length of service,
- 60% of gross annual salary after 30 years length of service,
- 70% of gross annual salary after 40 years length of service.

The change in the present value of the defined benefit obligation is summarized below:

In thousands euros	Dec 2023	Dec 2022
Present value of the defined benefit obligation at opening	34 311	37 332
Service cost	1 831	2 016
Delivered services	(2 660)	(3 375)
Discounting (interest cost)	1 107	313
Actuarial gains and losses recognised in the statement of comprehensive income	(120)	(1 966)
Changes in consolidation scope	-	-
Others	-	-
Present value of the defined benefit obligation at closing	34 469	34 311
Fair value of plan assets at opening	2 052	5 268
Contribution paid into the plan		
Benefits paid	(2 115)	(3 373)
Expected return on plan assets	63	157
Actuarial gains and losses (by net equity)	-	-
Changes in consolidation scope	-	-
Fair value of plan assets at closing	-	2 052

In thousands euros	Dec 2023	Dec 2022
Personnel costs (service cost)	(1 281)	(2 016)
Discounting (interest cost)	(1 107)	(313)
Expected return on plan assets	63	157
Others (restructuring provision, others)	-	-
Expense in the year	(2 325)	(2 172)

Actuarial gains (losses) recognized in other comprehensive income before tax are as follows:

In thousands euros	Dec 2023	Dec 2022
Cumulative amount at 1st january	13 607	15 573
Experience adjustment arising on plan liabilities	524	146
Experience adjustment arising on plan assets	-	-
Adjustement from changes in assumptions	(644)	(2 112)
Cumulative amount at closing date	13 487	13 607

The main actuarial assumptions for this obligation liability are as follows:

	Dec 2023	Dec 2022
Discount rate	3,20%	3,16%
Expected rates of salary increases	2% - 4,5%	2,50%
Expected rate of return on plan assets	n.a	3,16%

The sensitivity of actuarial calculations to the discount rate and the expected rate of return on plan assets at December 31, 2023, is presented below:

		In M€
	-0,25 pt	35,3
Discount rate		34,5
	+0,25 pt	33,7

The sensitivity of actuarial calculations to the discount rate and the expected rate of return on plan assets at December 31, 2022, is presented below:

		In M€
	-0,25 pt	33,1
Discount rate		32,3
	+0,25 pt	31,5

The underlying assets of employee benefit plans in France has been fully used as of December 2023 (€2.1m as of December 31, 2022) and corresponded to a group insurance contract with a private insurer. The average expected return was the same as the insurer's return on its "Actif Général Retraite" (General Retirement Asset).

B. Share-based plan

On December 12, 2016, a share-based plan was implemented for some employees, regarding their services rendered to the Group:

- This plan relates to the 138 000 preference shares of the company Tivana France Holdings, which have been issued and granted in 2017;
- These preference shares have no voting right, no dividend right, but have a liquidation bonus calculated by comparison between the Group's value (based on its value in use, or on its purchase price in case of a disposal of the Group) and a minimum expected return;
- This plan is qualified as equity settled based on the meaning under IFRS 2, notably because the liquidity clauses on these shares are assumed by Tivana Midco S.à.r.l., shareholder of the Group (see note 10.1);
- Beneficiaries acquire the right to dispose of their shares gradually from December 12, 2016, to March 31, 2025 ("vesting period"), by tranche at each anniversary date, if they are still working for the Group;
- The fair value of this plan is estimated at €3.2m; in compliance with IFRS 2, this fair value will be recognized as expense in the profit & loss over the vesting period, on a nonlinear basis. The IFRS 2 expense recognized in 2023 is €0.2m, (€0.1m in 2022).

10.4 Provisions

			Provisions		Discounting	Currency		
In thousands euros	Dec 2022	additions	utilisations	unused	Discounting	translation	Others	Dec 2023
Prov. for post-employment benefits (pension, retirement benefit)	32 259	1 835	(614)		1 109		(120)	34 469
Provision for claims and disputes	8 621	861	(900)	(3 146)				5 436
Provision for dismantling, decommissioning and restoring sites	59 232		(2 103)	(805)	1 659		25 926	83 909
Prov for bringing into compliance of sites	461							461
Other provisions	1 150	432	(22)					1 560
Total provisions	101 724	3 128	(3 639)	(3 951)	2 768	-	25 806	125 836
Presented as current	16 366							18 601
Presented as non-current	85 358							107 235

			Provisions		Discounting	Currency		
In thousands euros	Dec 2021	additions	utilisations	unused	Discounting	translation	Others	Dec 2022
Prov. for post-employment benefits (pension, retirement benefit)	32 054	2 016			155		(1 966)	32 259
Provision for claims and disputes	4 925	4 630	(867)	(67)				8 621
Provision for dismantling, decommissioning and restoring sites	79 656	444	(1 976)	(3 633)	736		(15 995)	59 232
Prov for bringing into compliance of sites	1 554		(20)	(1 073)				461
Other provisions	4 411	406	(1 425)	(2 242)				1 150
Total provisions	122 600	7 496	(4 288)	(7 015)	891	-	(17 961)	101 724
Presented as current	13 020							16 366
Presented as non-current	109 580							85 358

A provision is recognized when:

- there exists a current, legal or implicit, obligation arising from a past event,
- it is likely that an outflow of resources representing economic benefits will be required in order to discharge this obligation, and
 - the value of the obligation can be estimated with a sufficient degree of reliability.

Such obligations may be of a legal, regulatory, technical or contractual nature. They may also stem from the Group's practices or public commitments that have given rise to legitimate expectations on the part of the third parties concerned that the Group will assume certain responsibilities.

The amount recognized as a provision is the best estimate of the outflow of economic benefits required to settle the present obligation at the reporting date. If the value cannot be estimated reliably, no provision is recognized. The obligation is then disclosed as a contingent liability (see note 15.1).

Claims and disputes, other provisions

Claims and disputes mainly arise from litigation facing the Group.

These provisions are assessed and updated by senior management applying prudence in relation to damages claimed and the status of each case.

Provisions for dismantling, decommissioning and restoring sites

In accordance with IAS 37 "Provisions, Contingent Liabilities and Contingent Assets", the amount recognized as a provision is the best estimate of the expenditure required to settle the Group's obligations, notably regarding TDF SAS' obligations.

The provision is discounted to present value using a rate that reflects the time value of money, based on the yield of a risk-free bond. This actuarial estimate is reviewed every year and, if necessary, the provision is adjusted in the following way (in accordance with IFRIC 1):

- by addition or deduction to/from the corresponding dismantling asset,
- or if the dismantling asset is already totally depreciated, the provision adjustment is taken to profit or loss.

10.5 Deferred taxes

Deferred taxes recognized in the balance sheet are detailed below:

In thousands euros	Dec 2023	Dec 2022
Deferred tax assets Deferred tax liabilities	12 854 244 030	13 976 249 115
Net position - liability	231 176	235 139

The tax rates applicable for Group entities are as follows: 25% to 25,83% for French entities and 19% for Poland. Deferred tax positions have been netted by tax jurisdiction.

Breakdown by type of deferred taxes is as follows:

In thousands euros	Dec 2023	Variation	Dec 2022
Tax losses to carry forward	17 383	4 107	13 276
Intangible fixed assets	(41 300)	1 848	(43 148)
Tangible fixed assets	(107 631)	(6 927)	(100 704)
Financial assets	(6 136)	4 722	(10 858)
Inventories	836	8	828
Trade receivables	(2 630)	(929)	(1 701)
Other receivables	2 009	(382)	2 391
Tax provisions	(214 074)	(12 167)	(201 907)
Provisions	11 770	618	11 152
Financial debt	87 423	14 065	73 358
Trade payables	850	(427)	1 277
Other payables	20 324	(573)	20 897
Deferred tax assets (liabilities)	(231 176)	3 963	(235 139)

Unrecognized or impaired material deferred tax assets on tax losses carried forward as of December 31, 2023, concern:

- Tax losses carried forward of TDF Infrastructure SAS (included in the tax consolidation group of Tivana France Holdings, indirect shareholder of the Group, see the note 8.10) representing €566.8m of deferred tax assets at 25,83% (€547.4.m at 25,83% as of December 31, 2021);
- Other entities: €1.6m of unrecognized deferred tax assets.

10.6 Other current and non-current liabilities

Other liabilities are summarized below:

In thousands euros	Dec 2023	Dec 2022
Trade payables	199 779	192 281
Trade payables on fixed assets aquisitions	37 989	38 308
Corporate income tax liabilities	2 308	6 274
Tax and social liabilities	132 067	145 987
Other current liabilities	70 546	70 503
Current liabilities	442 689	453 354
Other non-current liabilities	394 130	343 034
Total liabilities	836 819	796 388

The tax and social liabilities primarily include cotisation foncière des entreprises (i.e., "CFE"), social security payables, VAT, and employee vacation provisions.

Other current and non-current liabilities include deferred income of €424.4m (€357.2m as of December 31, 2022) of which €387.4m is maturing after one year (€326.9m after December 31, 2022). The change in deferred income is related to IRU invoicing on Fiber activity.

11. Summary of financial assets and liabilities

	December 2023		Decembe	er 2022
In thousands euros	Book value	Fair value	Book value	Fair value
Available for sale financial assets	84	84	83	83
Assets held for sale - IFRS 5	-	-	-	-
Financial assets at fair value through P&L	-	-	-	-
Derivative instruments used as hedges	26 685	26 685	44 262	44 262

Assets carried at fair value	26 769	26 769	44 345	44 345
Loans and receivables	287 838	287 838	255 272	255 272
Cash and cash equivalents	135 626	135 626	56 843	56 843
Assets carried at amortised cost	423 464	423 464	312 116	312 115
Liabilities held for sale - IFRS 5 - net from the anticipated disposal				
result booked in the accounts	-	-		-
Interest rate swap for hedging purposes	-	-	-	-
Forward exchange contracts for hedging purposes	-	-	-	-
Liabilities carried at fair value	-	-	-	-
Financial debt	4 237 246	4 237 246	3 772 151	3 772 151
Financial lease obligations	7 895	7 895	6 311	6 311
Trade payable and other liabilities	836 819	836 819	796 388	796 388
Bank overdrafts	-	-	-	-
Accrued interest on financial debt and current accounts	193 544	193 544	113 182	113 182
Liabilities carried at amortised cost	5 275 504	5 275 504	4 688 032	4 688 032

The methodology used to determine fair value is described in note 4.12.

The following table gives an analysis by valuation method for the financial instruments recorded at fair value. The various levels are defined as follows:

- Level 1: fair value measurements are those derived from actual quoted prices in active markets.
- Level 2: fair value measurements are those derived from inputs other than quoted prices included within level 1, that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: fair value measurements are those derived from valuation techniques that are not based on observable market data.

		Dece	ember 2023		December 2022			
In thousands euros	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Available for sale financial assets		-	84	84			83	83
Net assets held for sale - IFRS 5	-	-	-	-	-	-	-	-
Financial assets at fair value through P&L	-	-	-	-	-	-	-	-
Derivative financial assets	-	26 685	-	26 685	-	44 262	-	44 262
Assets carried at fair value	-	26 685	84	26 769	-	44 262	83	44 345
Derivative financial liabilities	-	-	-	-	-	-	-	-
Net assets carried at fair value	-	26 685	84	26 769	-	44 262	83	44 345

Available for sale financial assets correspond to shares in non-consolidated entities.

Derivative financial instruments relate to interest rate hedging instruments taken out as part of the implementation of bank financing dedicated to the fiber activity.

12. Cash flow

12.1 Cash generated from operating activities before changes in working capital

Cash generated from operating activities excludes cash flows on non-current asset sales/purchases, income tax and finance costs which are disclosed under Cash flows from investing activities, Income tax paid and Cash flows from financing activities respectively.

12.2 Changes in working capital

In thousands euros	Dec 2023	Dec 2022
Changes in inventories	(1 182)	3 900
Changes in trade receivables	(53 017)	(43 056)
Changes in trade payables	5 170	9 040
Changes in prepaid income	56 020	153 590
Changes in other working capital	(11 692)	33 633
Changes in working capital	(4 701)	157 108

12.3 Net cash used in investing activities

As a reminder, as of December 31, 2023, the line « Net proceeds from disposals of subsidiaries » corresponds to the disposal of the entity Monaco Media Diffusion in February 2023 (see note 1).

12.4 Net cash used in financing activities

At December 31, 2023:

- drawdowns and repayment of debts are principally composed of:
 - o drawdowns related to the bond debt issued on July 21,2023 for €600m, which has been carried out simultaneously with the concurrent tender offer on a part of the bond debt issue on April 7,2016 generating a repayment of €(150)m (see notes 1 and 5.4),
 - o drawdowns related to the use of the new revolving credit line subscribed on July 10, 2023 for an amount of €155m (see note 1 and 5.4) following by a repayment of €(155)m,
 - Cash-out related to the repayment of the old revolving credit line for an amount of €(150)m. This credit line has been subjected to several drawdowns for a total amount of €225m and repayment for a total of €(225)m in the period prior to its replacement by the new revolving credit line (see note 1 and 5.4),
 - o drawdowns on term loans dedicated to the Fiber entities activity for €95m,
 - o cash outflows for rents of €(42.1)m presented as repayment of lease liability.
 - the refinancing cost of €(10)m mainly corresponds for 6.2m€, to cash outflows of issuance costs of the new bond and bank debts signed in 2023 as part of the refinancing operation (see note 1 and 5.4).
 - the line « Financial interests » mainly corresponds to:
 - \circ the €(35.1)m payment related to the annual fixed coupons on bond debts;
 - cash outflows for rent of €(18.4)m presented as interests' expenses, in accordance with the application of IFRS 16.

At December 31, 2022:

- drawdowns and repayment of debts were principally composed of:
 - o cash-out related to the early redemption of the first bond debt for €(220.1)m,
 - o drawdowns related to the use of the revolving credit line for a cumulated amount of €200m, which generated a repayment of €(50)m over the period,
 - o drawdowns related to the use of the capex facility for €70m over the period,
 - o drawdowns on new term loans dedicated to the Fiber entities activity for €350m,
 - o drawdowns in the first half of the year on the new revolving credit line dedicated to the Fiber entities activity for €10m, which generated a repayment of €(10)m in the second half of the year.
 - net cash-out of €(47.9)m related to the partial repayment of the shareholder loan granted by Caisse de Dépôts to Fiber entities, following the reorganization of the capital of TDF Fibre.
 - o cash outflows for rents of €(40.5)m presented as repayment of lease liability.
- the refinancing cost of €(16.5)m mainly corresponded to cash outflows of issuance costs of the new debt signed in 2022 and dedicated to the Fiber entities activity;
- the line « Financial interests » mainly corresponded to:
 - \circ the €(38.7)m payment related to the annual fixed coupons on bond debts;
 - the €(385)m payment of interests on shareholder's debt with Tivana France Holdings (sole shareholder of TDF Infrastructure Holding SAS)
 - cash outflows for rent of €(17.9)m presented as interests' expenses, in accordance with the application of IFRS 16.

Concerning the table of changes in financial liabilities disclosed in note 10.2:

- At December 31, 2023 :
 - o increase in lease liability following IFRS 16 over the period (€119.2m), has no cash impact, the counterpart being the recognition of a fixed asset under right of use of assets rent,
 - the change in bond issuance costs (€0.2m) and the increase in finance lease debts (€5m) have no cash impact,
 - o increase of operational investments debts (€8.4m) has no cash impact, the counterpart being the recognition of a fixed asset,
 - thus, after restatement of these items, changes in financial debts disclosed in note 10.2 represent a net cash impact of €(349.7)m.
- At December 31, 2022 :
 - o increase in lease liability following IFRS 16 over the period (€73.7m), has no cash impact, the counterpart being the recognition of a fixed asset under right of use of assets rent,
 - the change in bond issuance costs (€10.2m) and the increase in finance lease debts (€4.7m) have no cash impact,
 - thus, after restatement of these items, changes in financial debts represented a net cash impact of €256.2m.

13. Workforce

Total Group headcount is as follows:

	Dec 2023	Dec 2022
France	1 873	1 809
International	115	118
Total workforce at closing	1 988	1 927

14. Auditor's fees

	Ernst &	A Young FINEXSI and others		TOTAL		
In thousand of euros	Dec 2023	Dec 2022	Dec 2023 Dec 2022		Dec 2023	Dec 2022
Audit	461	443	108	152	569	595
Other services	97	6	65	-	162	6
TOTAL	558	449	173	152	731	601

15. Contingent liabilities and off-balance sheet commitments

15.1 Contingent liabilities (assets)

Contingent liabilities relate to:

- Possible obligations arising from past events whose existence will only be confirmed by the occurrence of uncertain future events that are beyond the Group's control; or
- Present obligations arising from past events, which are not recognized because it is not probable that an outflow of resources representing economic benefits will be required to settle the obligation or because the obligation amount cannot be measured with sufficient reliability.

Contingent liabilities as of December 31, 2023

In June 2018, the French Competition Authority initiated a procedure against the Group.

Early 2020, the French Competition Authority decided to discontinue this procedure. Following this decision, an appeal was filed which is still pending.

15.2 Firm commitments

A. Operating lease commitments – Group as lessee

At December 31, 2023, the Group directly recognizes in financial debt the lease liability related to rights of use of leases, in accordance with IFRS 16 (see the note 10.2).

B. Firm purchase commitments

Firm purchase commitments made by the Group are as follows:

In thousands euros	Dec 2023	< 1 year	1 to 5 years	> 5 years
Commitment of capex Commitment others	163 355 128 249	162 191 21 089	1 010 33 077	154 74 083
Total	291 604	183 280	34 087	74 237

In thousands euros	Dec 2022	< 1 year	1 to 5 years	> 5 years
Commitment of capex Commitment others	201 325 124 776	200 571 18 059	601 26 100	153 80 617
Total	326 101	218 630	26 701	80 770

C. Firm commitments to provide services

Under multi-year contracts with customers, Group entities have committed to provide services in the following business lines:

In thousands euros	Dec 2023 Actual	Projection	< 1 year	1 to 5 years	> 5 years
Digital Television	155 141	437 960	146 851	261 793	29 316

Group TDF Infrastructure SAS Notes to the consolidated financial statements December 31, 2023

In thousands euros	Dec 2022 Actual	Projection	< 1 year	1 to 5 years	> 5 years
Digital Television	158 557	405 676	142 409	258 414	4 853
Radio	114 706	312 877	99 115	208 683	5 078
Total Broadcasting Services	273 263	718 553	241 524	467 097	9 931
Telecom: site hosting	381 879	2 264 201	319 267	1 067 421	877 513
Telecom: other services	55 657	132 974	21 769	34 933	76 272
Total Telecoms & Services	437 536	2 397 175	341 036	1 102 354	953 785
Fiber (FTTH)	51 844	812 973	37 690	145 379	629 904
Others	6 823	2 441	1 939	502	-
Total revenue / future contractual revenue	769 466	3 931 142	622 189	1 715 332	1 593 620

The above table shows known and estimated information to date. In future periods, certain contracts may be subject to pricing adjustments.

The increase in the order backlog notably reflects a legal decision which occurred in 2023, ordering the release of a commitment given by the Group to the French Competition Authority regarding the duration limitation of certain Telecom contracts, thus allowing extensions of commercial agreements with the customers concerned.

15.3 Contingent commitments

Guarantees given

The Group has given guarantees totaling €72.6m as of December 31, 2023 (€85.7m at December 31, 2022), of which:

- €52.3m of a build guarantee issued in connection with the deployment of an optical fiber network in low populated areas, against €52.3m as of December 31,2022,
- €10.9m of guarantees for exploitation issued in connection with the operation of the fiber optical network in sparsely populated areas, against €24.9m as of December 31, 2022.
- €7.8m related to the first demand guarantee issued following the renewal of the agreement for the occupation of the Eiffel Tower in 2018

Guarantees received

The Group has received bank guarantees amounting to €7.7m, a vs €10.6m in December 31, 2022. These is concerned bank guarantees to replace holdback guarantees for deployments of fiber optical networks in sparsely populated areas.

Commitments under bank agreements

In connection with the new "Project Finance TDF Fibre" bank agreement put in place on February 15, 2022 (see note 5.4), commitments have been given:

TDF Infrastructure:

 French law pledge over receivables agreement (Intragroup loans) granted by TDF Infrastructure to TDF Fibre;

TDF SAS:

Guarantees given concerning optical fiber PIN under Public Service Delegation

As part of the deployment of the Val d'Oise, Val de Loire, Anjou and Faucigny-Glières, the Group signed Public Service Delegation contracts. These contracts for the construction and operation of the network last respectively until 2042, 2043, 2045 and 2048. The Group is committed to deploy networks with specific deadlines, and to remain compliant with the investment amounts planned in the business plan.

Guarantees given concerning AMEI Yvelines optical fiber network

The Group is committed to complete the financial commitments related to the agreement (including investments planned the business plan) and is committed to a deployment time schedule.

16. Shares in associates

Monaco Media Diffusion entity has been disposed on February 16, 2023. She was accounted for under the equity method (see the notes 1 and 7.2).

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Revenue	-	3 637
EBITDA	-	1 799
OPERATING INCOME	-	1 501
Financial income and expenses Income tax	-	(112) (273)
NET INCOME	-	1 116

17. Related party disclosures

17.1 Control

The Group parent company is TDF Infrastructure SAS, which is controlled at 100% by TDF Infrastructure Holding SAS (formerly Tyrol Acquisition 1 SAS, see note 10.1), controlled since March 31, 2015, by French entity Tivana France Holdings which owned 100% of its shares.

17.2 Compensation of key management personnel

Disclosure of the remuneration of the Group's key management is limited to people having the authority and responsibility for managing and controlling the Group's business.

In thousands euros	Dec 2023 (12 Months)	Dec 2022 (12 Months)
Employee benefits, including termination payments	(2 335)	(2 261)
Post-employment benefits	-	-
Share-based payments	(105)	(253)
Total expense	(2 440)	(2 514)
Provision for retirement indemnities	-	-
Debt related to equity instruments	-	-
Acquisition of equity instruments (cash out)	-	-
Cash outflows and liabilities	-	-
