## **Vitis will market its *Videofutur* package on all TDF fiber networks**

**Vitis and TDF announce they have signed a blanket contract, under which Vitis will market its *Videofutur* package on all TDF's optical fiber networks that will eventually represent over 700,000 plugs.**

While helping to roll out optical fiber throughout France under the France High Speed Broadband program, Vitis now markets its fully fiber-based *Videofutur* package in some twenty French counties with 1,000 communities and 500,000-plus plugs. Vitis strives to win over all independent and open Public Initiative Networks targeting a million eligible plugs by the end of 2018.

This deal consolidates TDF's market positioning as an independent and open fiber network operator aiming to bring mobile coverage to sparsely populated areas. Since 2017, five French counties have placed their trust in TDF to roll out, operate and market fiber networks in such areas.

The *Videofutur* package will be available:

- From July 2018 in French county Val d'Oise (via the Val d'Oise Fiber Public Initiative Network overseen by the Val d'Oise Digital Joint Syndicate). The communities to be first connected will be Bernes-sur-Oise, Bruyère-sur-Oise, Champagne-sur-Oise, Chaumontel, Hérouville, Luzarches and Méry-sur-Oise;
- Once the networks in French counties Les Yvelines (on the Yvelines Fiber network), Indre-et-Loire and Loir-et-Cher (on the Loire Valley Public Initiative Fiber network overseen by the Val d'Oise Digital Joint Syndicate) and Maine-et-Loire (on the Anjou Public Initiative Fiber network overseen by the Anjou Digital Joint Syndicate) are up and running.

*Videofutur*, Vitis's fully fiber-based package on sale at a standard €39.90 price, includes:

- Ultra high-speed broadband up to 1 Gbps (download) and up to 200 Mbps (upload);
- Latest generation router with state-of-the-art WiFi (802.11n/ac);
- 4K Ultra HD TV box;
- TV services with 100+ HD channels (including DTT, premium, themed and local channels) and catch-up services;
- Unlimited VOD offering 4000+ videos, namely movies with FilmoTV and children's box sets with TFOU MAX;
- Landline and mobile phone offers.

+ Card access to 15,000+ VOD videos and box sets including just released movies;

+ Non-binding access to pay beIN SPORTS and OCS options.

Mathias Hautefort, Vitis chairman, said: *"We are thrilled to be joining forces with TDF, our longstanding partner, to take part in ultra high-speed broadband development throughout France by offering top-of-the-range and affordable quadruple play."*

Olivier Huart, TDF chief executive officer, said: *"We are delighted to be teaming up on a strategic level with Vitis. The Videofutur package further enhances our services offering on all our fiber networks, while benefiting the French regions that have placed their trust in us. Once our first FttH plugs go live in July, connected Val d'Oise homes will have ultra high-speed broadband, thereby turning the digital development plan overseen by our local council partners that aims to give everyone access to fiber, into reality"*.

**About Vitis**

Vitis is an 'Entertainment Highway' operator combining ultra high-speed broadband development with access to best-in-class content. Vitis is a fiber ISP and an independent provider of pay video digital content. Backed by 200,000-plus members, Vitis markets its own TV/VOD packages under the *Videofutur* label and partners ISPs including Monaco Telecom, Switzerland-based Netplus, Luxembourg-based POST and Zeop. The firm's **Videofutur** package is now available to 500,000-plus homes in mainland France via Public Initiative Network operators Altitude, Axione and Covage. Vitis shareholders comprise Netgem Group, French state-owned investment bank Caisse des Dépôts and Océinde Group. [www.vitis.tv](http://www.vitis.tv)

**About TDF**

As a transparent and impartial operator, TDF helps digital firms in mainland France and French overseas territories meet their strategic transmission goals. For radio and DTT broadcasting, mobile broadband coverage and rolling out optical fiber, TDF, market leader with 13,900 sites, brings customers in-depth operational expertise, a mix of unique and ground-breaking technology and an exceptionally widespread local presence. In an ever more connected world, over the last four decades or more TDF has enabled telecoms and media companies to connect the French regions and people everywhere and faster.
